

## Essay prompts from the most recent SAT administration

Below are essay prompts from the most recent SAT administration in November 2014.

### Prompt 1

Think carefully about the issue presented in the following excerpt and the assignment below.

Many thoughtful people have said that cooperation brings out the best in people and leads to success in almost all endeavors. There is a limit, however, to the value of cooperative behavior, since such behavior may suppress people's willingness to be creative and to stand out from the crowd. Too often, cooperating means going along with the group even if that is not necessarily the best way.

**Assignment:** Does working with others lead to better results than acting as an individual? Plan and write an essay in which you develop your point of view on this issue. Support your position with reasoning and examples taken from your reading, studies, experience, or observations.

### Prompt 2

Think carefully about the issue presented in the following excerpt and the assignment below.

We have been taught since childhood that it is wrong to quit. We learn that quitting is impulsive and easy and that we should always endeavor to keep trying, even if it is difficult. But aren't there certain times when quitting is the right thing to do? In those instances, it takes great courage, maturity, and self-awareness to acknowledge that the plan we have chosen may need to be changed or that a new plan should be adopted.

**Assignment:** Is quitting ever a good idea? Plan and write an essay in which you develop your point of view on this issue. Support your position with reasoning and examples taken from your reading, studies, experience, or observations.

### Prompt 3

Think carefully about the issue presented in the following excerpt and the assignment below.

Many people wish that there were fewer limits on their behavior. They believe that rules—such as those imposed by parents, teachers, coaches, employers, and governments—prevent them from being successful in the activities they undertake. Other people believe that rules assist them in becoming successful in their endeavors. They claim that rules provide guidance and help define what is expected. They even say that having too much freedom can be a burden.

**Assignment:** Do rules interfere with or aid in the pursuit of success? Plan and write an essay in which you develop your point of view on this issue. Support your position with reasoning and examples taken from your reading, studies, experience, or observations.

### Prompt 4

Think carefully about the issue presented in the following excerpt and the assignment below.

There is an old saying, "The squeaky wheel gets the grease." Simply put, this means that people who make their needs or desires known by making noise—that is, by complaining—are the ones who get what they need or want. But

### **The Problem with Education Technology (Hint: It's Not the Technology)**

Ben Fink, Robin Brown, 2016-02-01 Education is in crisis at least so we hear And at the center of this crisis is technology New technologies like computer based classroom instruction online K 12 schools MOOCs massive open online courses and automated essay scoring may be our last great hope or the greatest threat we have ever faced In The Problem with Education Technology Ben Fink and Robin Brown look behind the hype to explain the problems and potential of these technologies

Focusing on the case of automated essay scoring they explain the technology how it works and what it does and doesn't do They explain its origins its evolution both in the classroom and in our culture and the controversy that surrounds it Most significantly they expose the real problem the complicity of teachers and curriculum builders in creating an education system so mechanical that machines can in fact often replace humans and how teachers students and other citizens can work together to solve it Offering a new perspective on the change that educators can hope organize and lobby for The Problem with Education Technology challenges teachers and activists on our side even as it provides new evidence to counter the profit making labor saving logics that drive the current push for technology in the classroom
