## **Germany Since Unification:**

**Representing East Germany Since Unification** Paul Cooke,2005-08 Cooke maps out the problematic path of German national identity as it struggles to deal with the legacy of division Drawing on postcolonial theory he argues that the East has been defined as the West's exotic other and shows how this stereotype has been vigorously challenged *Germany since Unification* K. Larres,2001-02-13 A decade after the fall of the Berlin Wall the collapse of the GDR and the end of the Cold War Germany has begun to cope with the political economic social and nationalistic challenges unification has posed to its institutions and way of life in both the western and eastern part of the once divided nation The books eleven authors all experts in their field analyse the way united Germany has tackled the many unforeseen problems and highlighted the gradually emerging short and long term patterns in Germany's slow adjustment to the new realities The country has not only become more populous and territorially bigger but also burdened with much underestimated problems particularly economic and social ones The emergence of a new economic political and perhaps military superstate as feared by many in 1990 has not materialised Instead Germany today is only just coping with the domestic and external challenges of unification The economic and social integration of the former East Germany into the Federal Republic has still not been completed and may take yet another ten to fifteen years The book is a timely and well researched effort by a team of outstanding experts to evaluate Germany's performance to date It gives the reader ample and well analysed information to comprehend the many challenges facing Germany and its European neighbours in the post Cold War world

**German Foreign Policy Since Unification** Volker Rittberger,2001 This book examines the extent to which German foreign policy has changed since unification and analyzes the fundamental reasons behind this change The book has three main aims The essays develop theories of foreign policy to predict and explain Germany's foreign policy behavior They test competing predictions about German foreign policy behavior since unification in several issue areas They also assess the much debated question as to whether post unification Germany's foreign policy is marked by continuity or change **The Federal Republic of Germany since 1949** Klaus Larres,Panikos Panayi,2014-08-27 Today the problems of reunification

events that are usually recounted separately Rather than looking just at the East German revolt or the process of unification that created a new nation she traces the interaction of these events and their diplomatic consequences for Europe Pond shows the political economic and social forces at work leading up to the unification during the transition process and in the aftermath Looking at the European framework she explains how significantly the European Community and its move toward integration both affected and were affected by German unification The book contains a wealth of new information from hundreds of interviews with top German and American policymakers East German Politburo members and average German citizens It also incorporates up to date research on such topics as the Stasi secret police and the midlife crisis of the German left Pond concludes with an assessment of the roles of the United States and a unified Germany in the new Europe Calling for a continued partnership between the United States and Germany who have come through a common baptism of fire since the fall of the Berlin Wall Pond casts an optimistic eye toward the future

Economic Aspects of German Unification Paul J.J. Welfens,2012-12-06 Paul J J Welfens The editor is pleased to present a second edition of Economic

Aspects of German Unification which includes new chapters and several postscripts Almost five years after unification output in the ex GDR is back to its 1989 level Due to a massive intra German resource transfer consumption per capita in eastern Germany has not fallen as much as output and employment which reduced by one fifth within three years Given high West German transfers which represented about 5% of West German GDP and more than 50% of East German GDP the fall of industrial output could have been much stronger than had politically been feasible Hence structural change necessary for productivity growth was dramatic in the ex GDR where the goods producing sector manufacturing mining energy and construction strongly changed its proportions within four years construction almost doubled and the share of investment goods production reduced by 10 percentage points between 1990 and 1994 and is now down to 21 1 % Mining lost two thirds of its share in the producing sector which itself was reduced relative to GDP The share of the services industry increased by 5 percentage points between 1991 and 1994 but with a share of 27 7% in East Germany s GDP it was still about 9 percentage points lower than in western Germany By contrast government accounted for 20 9% of GDP in eastern Germany but for only 13 2% in western Germany

**The Unification of German Education** Val Dean Rust,Diane Rust,1995 This study of the integration of East and West German education following the collapse of the German Democratic Republic in 1989 focuses on policy formation and implementation during this period of great social and political turbulence It is the result of a research project undertaken shortly after the unification The authors lived in East Germany for a full year looking carefully at individual schools vocational training centers teacher colleges and universities They asked macro analytic questions What are the conditions in which educational policy is successfully formulated How is this educational policy implemented What are the consequences of this policy From the start West Germany demanded a complete dismantling of the educational system in the former German Democratic Republic West German political leaders insisted as a condition of unification that all important agreements concerning education made by the GDR states be accepted by the new states The authors research shows that even before the unification East Germans had already opted for a system consistent with West German education law However the West Germans disregarded these changes and imposed their own version of reform on East Germany The study reveals that in this period of confusion the East Germans did not fully analyze the implications of the imposed conditions which now have unforeseen negative consequences The German situation is of great interest to all educators particularly students of educational policy making as well as researchers in political science economics and sociology *Reinventing Gender* Eva Kolinsky,Hildegard Maria Nickel,2003 Since the unification of the DDR and the GDR women living in the former East Germany have lost many of the advantages that came with a planned economy This collection of essays examines the reinvented meaning of gender and the experience of East German women since unification *The Unification of Germany in International and Domestic Law* Ryszard W.
