Annual Report Mpumalanga (South Africa). Department of Education, 2017 Politics and Governance of Basic Education Brian Levy, Robert Cameron, Ursula Hoadley, Vinodhan Naidoo, 2018-09-21 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world economic inclusion has risen to the top of the development discourse. A well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re-orient the system towards learning.

Annual Performance Plan Mpumalanga (South Africa). Department of Education, 2016 *Minerals Yearbook*, 2010 **TDR results 2019 report**, 2021-10-05 The report shows progress made on various indicators related to three overarching categories: technical, expected results, application of organizational core values and managerial performance. Ultimately, TDR's outputs and outcomes contribute to health impact measured through the achievement of Sustainable Development Goals (SDGs) and the World Health Organization's WHO Thirteenth General Programme of Work (GPW13) triple billion targets. Given the adoption of the Sustainable Development Goals by the global community in 2016, TDR developed its 2018-2023 strategy to showcase the Programme's unique contribution through research capacity strengthening and global engagement to improved health, quality education, enhanced partnerships and other relevant SDG targets guiding international development work over the next 15 years. The Performance Framework, including a revised set of indicators which is aligned with TDR's 2018-2023 strategy, the GPW13 strategic objectives and SDG targets, has been in place since 2018.
