## **Honey And Vinegar Incentives Sanctions And Foreign Policies:**

**Honey and Vinegar** Richard N. Haass, Meghan L. O'Sullivan, 2001-09-19 Buttressed by input from scholars, diplomats, and observers with an intimate knowledge of U.S. foreign policy, *Honey and Vinegar* examines engagement strategies that primarily involve the use of positive incentives. The book contends that although engagement has received little scrutiny relative to other more punitive foreign policy approaches, it has great potential as a tool for modifying the behavior of regimes with which the United States has significant disagreements. Heightened awareness of the costs associated with the use of sanctions or military force has catalyzed a search for policy alternatives. In this quest to find other appropriate policy options for pursuing foreign policy goals, strategies of engagement warrant serious consideration. As argued in these pages, the use of incentives rather than penalties may be particularly well suited to the post-Cold War world where globalization has made the economic isolation of any country difficult to achieve. At the same time, the collapse of the Soviet Union has meant that American carrots may be especially savory to many regimes once reliant on Soviet support. Paradoxically, engagement can be a good choice even when it fails in that it can open the door for other policy options. For instance, the two years in which America tried to engage Saddam Hussein before the Gulf War worked to the advantage of the United States later. After Iraq's invasion of Kuwait in 1990, American efforts to build a military coalition to oppose Iraq were facilitated by the sense in the region that the United States had earlier pursued a conciliatory policy but to no avail. Contributors to this volume have provided seven cases exploring episodes of engagement relations between the United States and China, Europe's Critical Dialogue with Iran, U.S. engagement with Iraq from 1988 to 1990, U.S. efforts to engage North Korea, the combination of U.S. persuasion and coercion toward South Africa in the apartheid era, the les *Bilateral Diplomacy* Kishan S. **Compound Containment** Dong Jung Kim, 2022-03-07 When does a reigning great power of the international system supplement military containment of a challenging power by restricting its economic exchanges with that state? Scholars of great power politics have traditionally focused on examining a reigning power's military containment of a challenging power. In direct contrast, Compound Containment demonstrates that these conventional studies are flawed without a sound understanding of the multilayered aspects of containment strategy in great power politics. Since economic capacity and military power are intimately linked to one another, countering a challenging power requires addressing both economic and military dimensions. Nonetheless, this nexus of security and economy in a reigning power's response to a challenging power cannot be explained by traditional theories that dominate research in international security. Author Dong Jung Kim fills a gap in the scholarship on great power competition by investigating when a reigning power will make its military containment of a challenging power compound by simultaneously employing restrictive economic measures. Its main theoretical claims are corroborated by an analysis of key historical cases of reigning power challenging power competition. This book also offers policy prescriptions for the United States by examining whether the United States is in a position to complement military

containment of China with restrictive economic measures

**From Empire to Community** Amitai Etzioni,2015-01-06

Whether one favors the US global projection of force or is horrified by it the question stands where do we go from here What ought to be the new global architecture Amitai Etzioni follows a third way drawing on both neoconservative and liberal ideas in this bold new look at international relations He argues that a clash of civilizations can be avoided and that the new world order need not look like America Eastern values including spirituality and moderate Islam have a legitimate place in the evolving global public philosophy Nation states Etzioni argues can no longer attend to rising transnational problems from SARS to trade in sex slaves to cybercrime Global civil society does help but without some kind of global authority transnational problems will overwhelm us The building blocks of this new order can be found in the war against terrorism multilateral attempts at deproliferation humanitarian interventions and new supranational institutions e g the governance of the Internet Basic safety human rights and global social issues such as environmental protection are best solved cooperatively and Etzioni explores ways of creating global authorities robust enough to handle these issues as he outlines the journey from empire to community
