### *Embedding Current Trends and Innovative Pedagogies in Education in*

*Oral Health: Advancing Educational Practices and Research* Melanie Nasseri, Ana Angelova, Volponi, Jonathan San Diego, Angelo Leone, Bo Danielsen, 2025-03-03 In recent years oral health educational research has gained momentum and recognition with attention drawn toward its effectiveness Pedagogy and research in pedagogy is no longer limited to pure educationalist but has reached all branches of higher education and in particular health and oral health faculties Teaching and research in teaching is recognized in academic career pathways with curriculum development design informed by research Professionalism ethics management and leadership communication social behavior sciences psychology and clinical humanities are taking up more and more shares of new oral health curricula to answer the demands of current dental care practice and oral health team members The COVID 19 pandemic accelerated adoption of technology to maintain oral health

education while lockdown hindered face to face teaching and patient care. This in turn required analysis and research in social and digital media, artificial intelligence, haptics and computer assisted learning, virtual and augmented reality as applied to dental education. Considering this new landscape in oral health education, assessment and assessment strategies have had to evolve and meet new challenges. Assessment for learning as learning and of learning have been designed to ensure graduation of safe beginners. The emphasis is on professional identity formation and acquiring lifelong learning skills revolving around feedback, reflection and reflective practice. The impact on student and staff welfare and wellbeing has been evident and has required research into management and prevention. Oral health education has been changed forever and with it the profile of our graduates but also the academics and clinical academics who teach them. It is therefore essential to explore this exciting and growing field in a dedicated Research Topic. We are calling for original research papers which will look to shine light on current trends as well as innovations developing in the field of education research as applied to oral health professions.

**The Adoption of Artificial Intelligence and Inertia in Higher Education** James Hutson, 2025-10-01. This research monograph explores the complex resistance to integrating Artificial Intelligence (AI) within higher education institutions. Despite the significant potential of AI to enhance education, faculty adoption remains inconsistent and is often met with skepticism. This book investigates key factors contributing to this resistance, such as leadership deficits, funding barriers, cultural inertia, and faculty attitudes toward technological change. Drawing on qualitative and quantitative empirical data, case studies from US and international institutions, and theoretical analysis, the book uncovers underlying concerns about job security and professional identity. It points to actionable strategies for overcoming these barriers and will be relevant for scholars, researchers, advanced students, and educators grappling with issues navigating technological integration in academia and with interests in the sociology of education, educational technology, and higher education administration.

**Proceedings [of The] Education-industry Conference ... October 20-21, 1944**

Flint, Michigan. General Motors Institute, 1944. **Diversity, Equity, Inclusion and Teaching** Kulwinder Maude, Lucy Davies, 2025-01-08. It has never been more important for trainee teachers to understand diversity, equity, and inclusion from a teaching perspective. This text provides an up-to-date, grounded, and full understanding of the injustices and inequalities that impact our classrooms. It challenges trainees to rethink their own assumptions and biases and to take time to explore how schools and teachers can be active agents of positive change. It empowers new teachers to be confident in their allyship of marginalised groups and disadvantaged children. Through practical advice and support, this book enables teachers to bring diversity, equity, and inclusion into the classroom.
