Intermediate Accounting IFRS, International Adaptation DONALD E.. WEYGANDT KIESO (JERRY J.. WARFIELD, TERRY D.) Jerry J. Weygandt, Terry D. Warfield, 2024-10-06    **Financial Modeling Mastery For Investment Analysts** Geoff Robinson, 2025-04-01 Financial Modeling Mastery for Investment Analysts is a practical guide to building the skills every investment professional needs to thrive in today's markets. Written by Geoff Robinson, ex UBS Managing Director and ten-time number one ranked analyst, the book bridges the gap between theory and practice by showing how financial models can be used not only as calculation tools but as frameworks for generating deeper investment insights. The book moves beyond formula memorization and template-driven modeling, teaching readers how to think critically about assumptions, integrate market dynamics, and stress test scenarios. With clear explanations, real-world examples, and step-by-step frameworks, Robinson equips analysts with the ability to construct robust models that withstand scrutiny and adapt to complex situations. Topics include revenue forecasting, sensitivity and scenario analysis, valuation techniques, M&A modeling, capital structure impacts, and the integration of qualitative insights into quantitative frameworks. Each chapter emphasizes how great models don't just crunch numbers; they reveal what's priced in and where opportunities or risks are being overlooked. Accessible yet rigorous, this book is designed for current and aspiring investment analysts, portfolio managers, and finance professionals who want to elevate their craft. Whether preparing for a career in equity research, private equity, or corporate finance, readers will gain the confidence and competence to build models that deliver clarity, conviction, and competitive advantage.
