2008 Reading Sublevels

2008 Reading Sublevels:

Building Communities of Engaged Readers Teresa Cremin, Marilyn Mottram, Fiona M. Collins, Sacha Powell, Kimberly Safford, 2014-06-20 Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. *Building Communities of Engaged Readers* highlights the concept of Reading Teachers who are not only knowledgeable about texts for children but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the will and the skill to read the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families, and communities. Importantly, it provides compelling evidence that reciprocal reading communities in school encompass a shared concept of what it means to be a reader in the 21st century: considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous inside-text talk on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.

Small-Scale Research in Primary Schools Kimberly Safford, Mary Stacey, Roger Hancock, 2013-09-13 *Small Scale Research in Primary Schools* provides guidance and inspiration for students and practitioners undertaking practical investigations and workplace enquiry in the primary school. The 30 chapters are carefully selected to illustrate a range of approaches to educational enquiry and are particularly relevant to the range of practitioners who may carry out school-based research as part of a course of study: teachers, trainees, and newly qualified teachers; teaching assistants; learning mentors; and staff who support children with individual needs. Research topics addressed in chapters include children's learning in the core curriculum subjects as well as themes central to teaching and learning. Important concepts and terminology are highlighted throughout. More specifically, areas of research explored include Play, Special Educational Needs, Working with parents and families, English as an Additional Language, Creativity, Language development, Learning environments. *Small Scale Research in Primary Schools* provides a straightforward, highly accessible introduction to enquiry approaches and research methodologies and the questions and challenges adults in schools encounter about children's learning. It shows how small-scale research in primary education can impact on professional thinking and learning. It aims to provide constructive support for students and practitioners in extending their knowledge and understanding through workplace enquiry.

Smaller, Quicker, Cheaper Daniel A. Wagner, 2011 The effective use of educational assessments is fundamental to improving learning. However, effective use does not refer only to the technical parameters or statistical methodologies. Learning assessments in use today, whether

large scale or household surveys or hybrid smaller quicker cheaper or SQC have varied uses and purposes The present volume provides a review of learning assessments their status in terms of the empirical knowledge base and some new ideas for improving their effectiveness particularly for those children most in need It is argued here that SQC learning assessments have the potential to enhance educational accountability increase transparency and support a greater engagement of stakeholders with an interest in improving learning In addition countries need a sustained policy to guide assessment choices including a focus on poor and marginalized populations
