*The United Nations and the Global Ebola Response. The UN emergency health mission "UNMEER"* Salome Fischer,Emilie

Brandt,2015-10-28 Master s Thesis from the year 2015 in the subject Politics Topic International Organisations grade no grade yet University of Aarhus course International Studies language English abstract The unprecedented scope and

implications of the 2014 Ebola outbreak in West Africa has confronted the international community with challenges in responding to the crisis On 19 September 2014 the first ever UN emergency health mission United Nations Mission for Ebola Emergency Response UNMEER was established UNMEER was set up as a temporary mission to bring together UN agencies and capabilities in the response and closely collaborate with governments NGOs Member States and other relevant actors with the main strategic objective to stop the Ebola outbreak This thesis investigates the effects of UNMEER on the global Ebola response as a whole and assesses whether the establishment of the mission was the right decision to make from the UN side in response to the outbreak In this regard the context in which UNMEER was established is scrutinized by examining the challenges faced in the outbreak and how these were approached by the international community The analysis is predominantly based on qualitative primary data collected through individual semi structured interviews with respondents who are or have been directly involved in the Ebola response as well as on secondary data Findings show that UNMEER had a positive impact on the response in various respects The exceptional decision from the UN side to establish the first ever emergency health mission increased worldwide awareness of the outbreak and catalysed a high level political and financial international engagement in the response Furthermore there seems to be a positive attitude towards UNMEER s role in bringing together UN agencies under a single structure in the response as well as the logistics support provided by UNMEER to UN agencies and other partners working in the response However due to a lack of presence and a limited number of staff in the affected countries effective collaboration with organizations involved on the ground did not sufficiently materialize Findings indicate that overall responders were not satisfied with UNMEER s impact on the ground This seems to be rooted in a significant gap between responders expectations and perceptions of UNMEER due to lack of clear information from UNMEER s side on what exactly could be expected of the mission Drawing on research findings and lessons learned from the outbreak instead existing resources and systems under the UN Office for the Coordination of Humanitarian Affairs OCHA should have been reinforced *Parliamentary Debates (Hansard)*.
