## **Assessment Candidates Guide:**

*The NVQ Assessor, Verifier and Candidate Handbook* Ros Ollin, Jenny Tucker, 2008 To guarantee the credibility and value of an NVQ irrespective of subject matter it is critical that standards are maintained to ensure consistency nationwide. The assessor needs to ensure that all papers are marked in the same way the verifier needs to ensure that the same standards are maintained across all assessors and the candidate needs to know what is expected of them. This is the only book for assessors and verifiers and is essential reading for anyone involved in vocational education including those taking NVQs. Packed with detailed and reliable guidance this essential handbook now in its fourth edition gives a template for success. From the assessor's point of view it shows the standards expected to ensure objectivity and consistency when assessing and marking the work submitted by the candidate. For the verifier it gives a detailed template for delivering absolute consistency across assessors. For the candidate it shows what is expected from the assessor in terms of presentation of work recording of documents and the correct submission of material. The book now includes the latest knowledge requirements under Domain E Assessment. Complete with examples and case studies this handbook is the standard guide for anyone involved in the awarding of the NVQ. *Social Value in Practice* Ani

Raiden, Andrew King, 2021-12-30 Social Value in Practice offers the reader a simple accessible guide for considering creating and delivering social value in projects and within their organisation. The book connects social value to the global Sustainable Development Goals SDGs and presents an insight into the many and different practical ways in which individuals and organisations can make a positive impact towards resolving the people, planet and prosperity agenda. Good work, good practice in managing people including working conditions and equality, diversity and inclusion. Education, skills and employment including apprenticeships and enhancing the industry image. Social procurement and circular supply chains. Strategic partnerships and social enterprises. Community development, regeneration and placemaking. Construction consultancy. Architecture, design and construction. Assessing and measuring social value. Reflective practitioners can pick it up, turn to a chapter and learn something they can use right away. Through numerous practical examples and think pieces, this book can help readers learn how to create social value, how to improve and build upon current practice and how to co-create social value in partnership with clients and the supply chain. The authors aim to empower and inspire stakeholders to engage with new ideas and create more value for those using the built environment. This book is a must read for all those involved in procuring, tendering, planning, designing, developing, funding, building, working in and managing the built environment.
