Buttaro, 1999 With this book the author offers

information about the core principles of long term care administration. The purpose is to explain basic concepts and information essential to long term care administration. The training materials are to be used by long term care administrators. Areas associated with long term management are covered such as regulations, finance, staffing, personnel and medical care. This book is written in an easy to follow format and is referenced well for the original regulatory sources. Principles of management including personnel management, theories of management and finance are very well covered. The chapter on medical care in the nursing home is very dated but since the intended audience of the book would not be responsible for medical management this may not be of great consequence. This is a basic review of principles relative to long term care. The format is easy to follow and this would be a useful reference text or review text for those in long term care administration.

Long-Term Care Managing Across the Continuum John Pratt, 2015-01-23. *Long Term Care Managing Across the Continuum* Fourth Edition is an ideal introduction to management in this industry. Adopted as a reference for the national licensing examination prepared by the National Association of Long Term Care Administrator Boards (NAB) this book covers the full continuum of long term care. The Fourth Edition is a thorough update that offers a new chapter on the Affordable Care Act (Obamacare) with a particular focus on its impact on long term care. All other chapters have been updated with the latest changes in regulations, financing methods, forms of service delivery and management methods in this dynamic field. The chapter on Leadership and Culture Change has been separated into two distinct chapters, Leadership in Long Term Care and Culture Change in Long Term, each with expanded information.

The Guide to National Professional Certification Programs Philip M. Harris, 2001. The job market continues to change. Highly skilled and specialized workers are in demand. Traditional education cannot meet all the needs to create specialty skill workers. Certification provides up to date training and development while promoting individual or professional skills and knowledge in a focused manner. Certification as a way of continuing professional education can also be more cost effective.
