

Asthma Soap Note

Prepared by: [Your Name]

I. Subjective

A. Chief Complaint

"I have been experiencing shortness of breath and wheezing, especially at night, over the past week."

B. History of Present Illness

The patient is a 35-year-old male with a known history of asthma. He reports increased symptoms over the past seven days, triggered by cold weather and exposure to dust. Symptoms include wheezing, coughing, and chest tightness. No relief with his current inhaler (albuterol). Denies fever or chills.

C. Past Medical History

- Diagnosed with asthma at age 12.
- History of seasonal allergies.

D. Social History

- Works as a warehouse manager, with frequent exposure to dust and chemicals.
- Smokes occasionally (3-4 cigarettes per week).

Asthma Case Study With Soap Notes

Terry L. Schwinghammer

Asthma Case Study With Soap Notes:

Foundations for Community Health Workers Tim Berthold, Alma Avila, Jennifer Miller, 2009-08-13 Foundations for Community Health Workers Foundations for Community Health Workers is a training resource for client and community centered public health practitioners with an emphasis on promoting health equality. Based on City College of San Francisco's CHW Certificate Program, it begins with an overview of the historic and political context informing the practice of community health workers. The second section of the book addresses core competencies for working with individual clients such as behavior change counseling and case management and practitioner development topics such as ethics, stress management, and conflict resolution. The book's final section covers skills for practice at the group and community levels such as conducting health outreach and facilitating community organizing and advocacy. Praise for Foundations for Community Health Workers: This book is the first of its kind, a manual of core competencies and curricula for training community health workers. Covering topics from health inequalities to patient centered counseling, this book is a tremendous resource for both scholars of and practitioners in the field of community based medicine. It also marks a great step forward in any setting, rich or poor, in which it is imperative to reduce health disparities and promote genuine health and well being. Paul E Farmer MD, PhD, Maude and Lillian Presley Professor of Social Medicine in the Department of Global Health and Social Medicine at Harvard Medical School, founding director, Partners In Health. This book is based on the contributions of experienced CHWs and advocates of the field. I am confident that it will serve as an inspiration for many CHW training programs. Yvonne Lacey, CHW former coordinator, Black Infant Health Program, City of Berkeley Health Department, former chair, CHW Special Interest Group for the APHA. This book masterfully integrates the knowledge, skills and abilities required of a CHW through storytelling and real life case examples. This simple and elegant approach brings to life the intricacies of the work and espouses the spirit of the role that is so critical to eliminating disparities, a true model educational approach to emulate. Gayle Tang, MSN, RN, director, National Linguistic and Cultural Programs, National Diversity Kaiser Permanente. Finally, we have a competency based textbook for community health worker education, well informed by seasoned CHWs themselves as well as expert contributors. Donald E Proulx, CHW National Education Collaborative, University of Arizona.

Clinical

Manifestations & Assessment of Respiratory Disease - E-Book Terry Des Jardins, George G. Burton, 2023-03-28 Selected for Doody's Core Titles 2024 in Pulmonology. A realistic look at treating respiratory diseases. Clinical Manifestations and Assessment of Respiratory Disease 9th Edition gives you the fundamental knowledge and understanding required to successfully assess and treat patients with respiratory diseases. This foundation helps you learn how to systematically gather relevant clinical data, make an objective evaluation, identify the desired outcome, and formulate an assessment design, a safe, appropriate, and effective treatment plan, and document all the steps involved. With this knowledge, you will understand the effectiveness of performing therapies and when to adjust therapy to a desired outcome. UNIQUE Emphasis on clinical

scenarios and critical thinking skills prepares you for real world practice UNIQUE Focus on assessment and Therapist Driven Protocols TDPs UNIQUE Overview boxes highlight the clinical manifestations for each disease Logically organized content is written at a user friendly approachable reading level for ease of use and understanding Case studies provide realistic examples of the respiratory therapy practitioner's role in successful patient care End of chapter self assessment questions and answer key are available on the companion Evolve website NEW Clinical Connection boxes provide real world clinical case studies in relevant chapters NEW An updated design and additional tables boxes and figures draw attention to key information UPDATED Content includes the latest developments related to SARS and COVID 19 UPDATED Information on ventilators usage and protocols reflects current practice NEW QR codes in most chapters direct to additional outside content to enhance the chapter including audio sounds and animations
