mates based on algorithms that wall us off from anything that might be too new or too different Match com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We're more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

The Asia-Pacific Trade Agreement Joong-Wan Cho,Rajan Sudesh Ratna,2016 International trade and investment have enabled many countries in the Asia Pacific region to boost economic growth and have lifted millions out of poverty As the Asia Pacific region continues to thrive economically trade and investment barriers are being dissolved and eliminated As countries begin to depend on each other more trade policy is gradually becoming a useful measure to achieve inclusive and sustainable development Trade and investment are linked to the environment and social issues hence their impacts are also multi dimensional It has now been recognized that sustainable production and consumption are essential for sustainable development Countries realize that they are not able to approach global and regional problems on their own and require cooperation both at the level of

government and business As a result the region has been active in concluding regional cooperation frameworks which routinely are centered on trade and investment In the meantime business has forged regional integration through the formation of regional value chains and production networks while governments have paved the way for the expansion of such production networks through the formation of regional trade agreements and economic partnerships Thus the Asia Pacific Trade Agreement APTA which is the oldest preferential trade agreement in the region with a large consumer base can play an important role in filling this gap Given a slow progress in the multilateral negotiations in the WTO especially when the members have started questioning the utility of the negotiations after 15 years and a lack of consensus on how to move forward the regional trade agreements can play a vital role Even if they pose a challenge to the multilateralism selected liberalisation of trade and economy in present time can become a building block for future multilateral negotiations One of the reasons for the surge in these preferential trade agreements is to make binding commitments on WTO plus and WTO beyond issues While there are many agreements that exist in Asia and the Pacific there is no such attempt to consolidate them in one umbrella framework Understanding the benefits of the consolidation one such initiative was started by ESCAP a few years back The RECI initiate for market integration could well be facilitated by APTA however it cannot deliver unless it transforms itself in a new generation agreement Regional integration and cooperation are also important to meet the 2030 agenda for sustainable development Instead of wasting resources in discussing a new institutional framework it would be more effective to use the existing framework and for the Asia Pacific economies the APTA provides an existing institutional platform The cases discussed in this book prepare a ground for the future and it is expected that all the stakeholders member States of ESCAP private sector as well as researchers would benefit from this publication on APTA South South Regional Integration and Sustainable Development *South African national bibliography* ,1999 Classified list with author and title index
