

Leadership Proctored ATI Study Guide

Leadership Styles

- **Authoritarian/Autocratic**
 - Decisions made with little input from the team, leader dictates instructions
 - Leads to mistrust and high turn-over
 - This style may be useful in emergency situations
- **Laissez-Faire**
 - **Hands off approach**
 - Leader allows team to make decisions for themselves with no direction
 - Leads to low productivity and frustration
 - **Laissez Faire=Lazy**
- **Democratic**
 - Leader and team work together towards goals and outcomes
 - Promotes group satisfaction, but may slow decision making
- **Transactional**
 - Focused on current work completion, **rewards for finishing tasks**, and consequences for delayed tasks
 - May lack big picture thought
- **Transformational**
 - Promotes teamwork and shared decision making
 - Leader is respected and trustworthy
 - **Ideal Style**

Acute vs. Chronic

- New onset symptoms take priority over symptoms associated with a chronic illness.
- Example
 - A patient with a long bone fracture with sudden onset of chest pain and dyspnea takes priority over a COPD patient with an SpO2 of 89% (common for this disorder)
- Common words that represent **Acute**
 - **New Onset, Sudden**

Unexpected vs. Expected

- Unexpected findings take priority over S/S that are expected for a patient's diagnosis
- Example
 - A diabetic patient with a blood sugar reading of 40 mg/dL takes priority over a patient with appendicitis complaining of RLQ pain (expected with this diagnosis)

Restrictive/Invasive Procedures

- Begin with the least restrictive or invasive interventions
 - Example 1
 - For a confused patient at risk for falls, provide a sitter (non-restrictive) instead of applying restraints (restrictive)
 - Example 2
 - For a patient having difficulty urinating, try pouring warm water over the perineum (non-invasive) before inserting a urinary catheter (invasive)

Ati Study Guide Rn Review:

A Guide for Developing a Culture of Caring Through Nursing Peer Mentorship Programs Deborah Kramer, 2024-08-19

This book describes in detail how to develop successful programs of nursing mentorship utilizing concepts of caring that yields a strong caring body of nurses who will be nurse thrivers as they find fulfillment and meaning in their professional commitment and will train others to do the same. The mentorship program is the ticket to success that many students need to complete their degree program, prevent burnout, pass the nursing NCLEX examination and remain in the workforce after graduation. The current attrition rate in baccalaureate nursing programs is 25-50% as is the attrition rate in the first 2 years of employment of new RNs entering the workforce. Burnout is due to a lack of care and support for helping the students navigate the rigor and demands of the nursing program. Creating a community of learners with caring and support creates an environment that fosters academic engagement and success. The unique aspect of this book is its focus on creating a caring environment to support the students, helping them develop caring skills, empathy, resilience, and their own self-care, developing the skills for success beyond their educational process into the workforce. This book integrates all patterns of knowing: personal, aesthetic, empiric, and ethical, and provides the missing link of peer mentorship necessary to the development of resilient, emancipated nursing students and graduates capable of working in community with others to establish cultures of care in health care. This is a must-have resource for transformation of nursing education in the next century. Foreword by Dr. Margaret McClure.

A Man's Guide to a Nursing Career Chad O'Lynn, 2012-10-23. Named a 2013 PROSE Award Honorable Mention in Nursing and Allied Health Sciences. Winner of the Dr. Gene Tranbarger Writing Award from the American Assembly for Men in Nursing. Though O'Lynn emphasizes a male perspective on becoming a nurse, this book should be required reading for anyone thinking about entering the nursing profession. The section on nursing education from the perspective of both students and instructors is worth the price of the book. Highly recommended. Choice Current Reviews for Academic Libraries. I love this book. It has inspired and motivated me to continue to do something for men in nursing at the college where I teach, as well as for men in our delivery rooms and postpartum units. We need to move beyond women and children and include men as fathers to truly promote wellness for families. Janet Ierardi, MSN, RNC, CNE, Assistant Professor, Family Focused Nursing, Lawrence Memorial Regis College Nursing Program. This is a nuts and bolts guide to a career in nursing from the earliest consideration of a nursing career through education and clinical practice, designed specifically for men. Written by the author of *Men in Nursing: History, Challenges, and Opportunities*, it was created at the request of numerous colleagues for a book that addressed the practical needs and concerns of men throughout their nursing career journey. The text presents the numerous career paths available in nursing along with a consideration of their financial benefits, job security, personal fulfillment, and the need for nurses who are adept at information management and high-tech skills. The history of nursing is discussed through biographies of nine remarkable male nurses, offering much

needed historical role models The guide discusses strategies for dealing with a rigorous nursing curriculum compounded by the challenges of anti male sentiment that is sometimes present It takes the reader from day one of nursing school through the licensing exam and also addresses the specific needs of second degree and accelerated program students The book discusses the obstacles that may result from cross gender nursing communication and relationships with a focus on teamwork Also covered are professional development and leadership concerns in light of criticism from some women that men advance for self serving reasons or on the backs of women colleagues

Key Features Discusses how to navigate the rigors of nursing school along with strategies for success Explains how cope with anti male sentiment Describes how to create an application that stands out from the pack Helps male students to boost caring skills and touch patients in ways that reflect professionalism empathy and skill Includes helpful advice for landing a first job
