Blank, Ellen M. Pechman, 1995 A majority of states are now involved in developing revising and implementing state
frameworks in mathematics science and other core subjects The Council of Chief State School Officers completed a one year
study of 60 current state curriculum frameworks in mathematics and science The purposes of this study were to define and
describe state mathematics and science curriculum frameworks evaluate the role of frameworks in systemic reform and
assist states with development of new frameworks Chapters in this report reflect key aspects of the design of the study
including 1 a survey of states to identify frameworks and collect information about state context 2 a content analysis of key
elements of the frameworks using definitions and categories developed in the study and 3 a qualitative review of specific
aspects of recent frameworks by teams of experts The value of frameworks is as follows one half of frameworks link content
