YEAR 5**Mimi's Island Home.**

Mimi lives on an island far out in the ocean. You may think that it would be fun to live on an island. But Mimi is sad. Mimi has not seen her friends in a year. There is no one to play with or talk to. There isn't even a school.

Why has Mimi's family chosen such a lonely life? Mimi's parents study animals that only live in the harbor of this island. But Mimi's dad knows how unhappy Mimi is. He wants to do something to make her happy.

Mimi's dad discovered a new kind of fish. It had bright orange fins and a blue tail. Dad named this unusual fish after Mimi. He calls it the Mimifish. It hides in the seaweed. It only comes out in the morning and at dusk.

Mimi's dad takes his underwater camera to the harbor every day. He hopes to capture the Mimifish on film. Maybe someday her dad will learn enough about the Mimifish. Then Mimi can go back to her old school. Then she can see all her old friends again. Mimi hopes that day will come soon.

1	Where does Mimi live?
2	Why is Mimi unhappy?
3	How long has Mimi's family lived on the island?
4	Why do Mimi's parents want to live on the island?
5	Why do you think Mimi's father plans to name the fish after her?

Reading in Chinese as an Additional Language Liu Li, Dongbo Zhang, 2022-12-29

Reading in Chinese as an Additional Language focuses on Chinese literacy acquisition which has been considered most difficult by both learners and teachers of Chinese as an additional language (CAL). Three major areas are covered: 1. acquisition of Chinese characters, 2. reading comprehension subskills and reader's identity, 3. reading instruction and assessment. The first part delves into the foundation of Chinese literacy development, how to learn and teach Chinese characters. The second part examines various learners' reading comprehension subskills as well as the evolution of learners' literacy identity. The third part explores effective instructional methods and assessment practices for CAL reading development. Theoretically, this book provides frameworks and evidence from both cognitive and sociocultural perspectives on the nature of CAL reading development. Pedagogically, the book showcases how to teach and assess CAL reading skills. Methodologically, this book includes empirical studies using both qualitative and quantitative methods. In terms of scope, the book covers a much broader spectrum of issues about CAL reading research and classroom teaching than has previously been available. Writing is also discussed in several chapters. In terms of technology, the book includes discussion on how the
