It was written over a period of 4 years and has been reviewed and tested by hundreds of users over that period. It has been used as the reference for training on GPS usage. Because of its unique approach that develops the theory behind operation as well as specific details it provides a basis that will allow a user to be able to use any GPS receiver. Skills in the use of a GPS will provide assurance and safety for the user. Topics extend beyond just operating the unit to actually being able to use it for navigation on the land in the sea or in the air. Topics are applicable whether you are hiking or driving to your destination.
