Daily Planning for Today's Classroom Kay M. Price, Karna L. Nelson, 2003 Lesson plans are required of all K-12 teachers. DAILY PLANNING FOR TODAY'S CLASSROOM instructs pre-service or in-service teachers how to write effective plans that in turn promote student learning.

Hands-On Algebra! Frances McBroom Thompson, Ed.D., 1998-06-08 Lay a solid foundation of algebra proficiency with over 155 hands-on games and activities. To complement the natural process of learning, each activity builds on the previous one from concrete to pictorial to abstract. Dr. Thompson's unique three-step approach encourages students to first recognize patterns, then use diagrams, tables, and graphs to illustrate algebraic concepts, and finally apply what they've learned through cooperative games, puzzles, problems, and activities using a graphic calculator and computer. You'll find each activity has complete teacher directions, lists of materials needed, and helpful examples for discussion, homework, and quizzes. Most activities include time-saving reproducible worksheets for use with individual students, small groups, or the entire class. This ready-to-use resource contains materials sufficient for a two-semester course in Algebra I and can be adapted for advanced students as well as students with dyslexia.
