Question 21 (b) (2 marks)

$$\frac{F}{l} = \frac{\mu_0 I_1 I_2}{2\pi r}$$

$$0.0138 = \frac{4\pi \times 10^{-7}}{2\pi} \frac{14.4 \times 14.4}{r}$$

$$0.0138r = 4.14472 \times 10^{-5}$$

$$r = 3.005 \times 10^{-5} \text{ m}$$

Question 21 (c) (3 marks)

When the switch is closed, current is allowed to flow through the parallel conductors. The wire at the top will have a current going to the right and the one on the force meter will have a current going to the left. The current-carrying conductors produce a surrounding magnetic field. The field from the top wire will create a downward force on the bottom wire. (Using right hand push rule)

The lower wire will experience a force downwards, increasing the reading on the force meter.

Roughly a billion people around the world continue to live in state of chronic hunger and food insecurity Unfortunately efforts to improve their livelihoods must now unfold in the context of a rapidly changing climate in which warming temperatures and changing rainfall regimes could threaten the basic productivity of the agricultural systems on which most of the world's poor directly depend But whether climate change represents a minor impediment or an existential threat to development is an area of substantial controversy with different conclusions wrought from different methodologies and based on different data This book aims to resolve some of the controversy by exploring and comparing the different methodologies and data that scientists use to understand climate's effects on food security It explains the nature of the climate threat the ways in which crops and farmers might respond and the potential role for public and private investment to help agriculture adapt to a warmer world This broader understanding should prove useful to both scientists charged with quantifying climate threats and policy makers responsible for crucial decisions about how to respond The book is especially suitable as a companion to an interdisciplinary undergraduate or graduate level class *American Men and Women of Science* ,1971
