## **Misinformation and Mass Audiences**

Brian G. Southwell, Emily A. Thorson, Laura Sheble, 2018-01-24 Lies and inaccurate information are as old as humanity but never before have they been so easy to spread Each moment of every day the Internet and broadcast media purvey misinformation either deliberately or accidentally to a mass audience on subjects ranging from politics to consumer goods to science and medicine among many others Because misinformation now has the potential to affect behavior on a massive scale it is urgently important to understand how it works and what can be done to mitigate its harmful effects Misinformation and Mass Audiences brings together evidence and ideas from communication research public health psychology political science environmental studies and information science to investigate what constitutes misinformation how it spreads and how best to counter it The expert contributors cover such topics as whether and to what extent audiences consciously notice misinformation the possibilities for audience deception the ethics of satire in journalism and public affairs programming the diffusion of rumors the role of Internet search behavior and the evolving efforts to counteract misinformation such as fact checking programs The first comprehensive social science volume exploring the prevalence and consequences of and remedies for misinformation as a mass communication phenomenon Misinformation and Mass Audiences will be a crucial resource for students and faculty researching misinformation policymakers grappling with questions of regulation and prevention and anyone concerned about this troubling yet perhaps unavoidable dimension of current media systems

**Schools, Space and Culinary Capital** Gurpinder Singh Lalli, 2022-08-05 This book introduces the notion of culinary capital to investigate socialisation and school mealtime experiences in an academy school based in the UK Drawing on interviews collated from children teachers and staff within the school the text sheds light on food insecurity in society and schools as being major issue in educational policy The book examines schools as a microcosm for society with school food space being the playground for socialisation It shows how forms of culinary capital can be extended in the school dining hall where social space is negotiated with notions of inclusion and exclusion during mealtime The book uses gender class and race to understand the school dining hall as a space where culinary capital can be exchanged and learnt Thorough research

accompanied by ethnographic visuals field notes and observations it also explores the sensory impact of school gardens As such the book will be of interest to students teachers school leaders educators and policy makers in the fields of Education Sociology Social Policy and Food Studies *Food and Cooking Skills Education* Anita Tull,2018-01-29 Food and Cooking Skills Education FCSE is a complex mix of policy and practicality educational theory and pedagogy classroom and government policy This book shows how FCSE has been at the centre of a tussle between education and policy for decades It reviews how FCSE has grappled with various significant issues of concern that threaten to marginalise it and pose problems for educational practicalities as expectations are increased but resources are squeezed It assesses the debate about the significance and importance of acquiring practical food and cooking skills in a society where the purchase of ready made food has become commonplace and public knowledge of where our food comes from is noticeably lacking This has contributed to the escalating incidence of diet related diseases and the attendant cost to society and threatened environmental sustainability In turn governments have reacted by proposals to make practical cooking skills a statutory National Curriculum subject as part of the armoury for tackling such costs Based on detailed research conducted across England and Wales as well as comparisons with thirty five other countries or states the author makes recommendations for policy to manage this challenge facing contemporary society *Consumer Involvement in Private EU Competition Law Enforcement* Maria Ioannidou,2015-09-03 Despite the growing importance of consumer welfare in EU competition law debates there remains a significant disconnect between rhetoric and reality as consumers and their interests still play only an ancillary role in this area of law Consumer Involvement in Private EU Competition Law Enforcement is the first monograph to exclusively address this highly topical and much debated subject providing a timely and wide ranging examination of the need for more active consumer participation in competition law Written by an expert in the field it sets out a comprehensive framework of policy implications and arguments for greater involvement positioning the debate in the context of a broader EU law perspective It outlines pragmatic approaches to remedial and procedural measures that would enable consumer empowerment Finally the book identifies key institutional and political obstacles to the adoption of effective measures and suggests alternative routes to enhance the role of consumers in private competition law enforcement The book's innovative approach combining normative analysis and practical solutions make it invaluable for academics policy makers and practitioners in the field **The Trend Management Toolkit** A. Kjaer,2014-10-07 In a fast moving world businesses need to keep up with data analysis and pattern spotting to identify future opportunities Anne Lise Kjaer presents a unique methodology for global trend spotting along with practical tools and approaches to help companies and organizations analyse market changes and determine the way ahead **Financial Crisis in American Households** Joseph Nathan Cohen,2017-04-24 More than one third of Americans could not sustain a basic livelihood without government assistance Almost 60 percent of seniors are dependent on the government Why is this This book examines how the U S economy s

failure to deliver high quality universally accessible basic necessities is creating acute financial insecurity among the American middle class. Over the past 30 years America's middle class has grown more financially insecure. How much of this pressing problem is due to Americans' failure to restrain their spending versus their upwards spiraling and increasingly necessary expenditures on health care, education and housing? And how can Americans choose between financial security and paying for essentials on a day to day basis? This book answers these tough questions and many more in its evaluation of a complex and contentious issue: how basic expenses of life in the 21st century are bankrupting American families. The book begins with a snapshot of U.S. household finances, an assessment of financial insecurity's prevalence across the nation and a description of how American households have declined into their present precarious economic situation over the last three decades. The author's analysis then looks at how European countries pursue policies that make these essentials highly accessible and postulates that the socialization of these essentials in other countries has helped to solidify household finances and maintain living standards. The work uniquely focuses on the plight of the middle class in America to provide relevant useful information to help as many readers as possible to better understand and improve their own financial situations.
