Learning, Design, and Technology J. Michael Spector, Barbara B. Lockee, Marcus D. Childress, 2023-10-14 The multiple related fields encompassed by this Major Reference Work represent a convergence of issues and topics germane to the rapidly changing segments of knowledge and practice in educational communications and technology at all levels and around the globe. There is no other comparable work that is designed not only to gather vital current and evolving information and understandings in these knowledge segments but also to be updated on a continuing basis in order to keep pace with the rapid changes taking place in the relevant fields. The Handbook is composed of substantive 5 000 to 15 000 words peer reviewed entries that examine and explicate seminal facets of learning theory research and practice. It provides a broad range of relevant topics including significant developments as well as innovative uses of technology that promote learning performance and instruction. This work is aimed at researchers, designers, developers, instructors, and other professional practitioners.

Community Participation in School Management Kazuro Shibuya, 2022-09-12 Nobody denies that trust in schools is key to success in generating any educational outcomes. However, trust is often eroded resulting in conflicts, alienation and differentiation among school level stakeholders. This book analyses school based management (SBM) of education through the lens of relational trust in the context of Ghana, revealing how community participation in school management leads to educational outcomes. Conducting quantitative analysis of headteacher questionnaires from public basic schools and qualitative analysis of case study schools in the Akatsi South District of Ghana, Shibuya offers critical insights into building sustainable relationships between individual households and geographical school communities. He argues it is critical to highlight relational trust as an analytical tool to examine relationships between actors and factors in school management. The research finds that trust in schools is a two way mechanism and the mutuality of expectations and obligations among stakeholders is essential if children's learning outcomes are to improve. With its mixed methods approach, this book will be a valuable resource for scholars in comparative education, those in educational development and those interested in African contexts.

Daily Graphic Ransford Tetteh, 2014-09-16 **Ghana International Monetary Fund, African Dept.**, 2024-07-11 This Medium Term National Development Policy Framework (MTNDPF) 2022-2025 seeks to operationalize Article 36 Clause 1 of Ghana's 1992 constitution which enjoins Government to ensure that the national economy is managed efficiently to maximize the welfare of the citizenry. It was prepared with broad based stakeholder participation including the use of cross sectoral planning groups (CSPGs) as enjoined by article 15 of the National Development Planning Commission Act 1994 (Act 479). Public consultations were also undertaken across the country including engagement with parliament and the presidency. It was finally approved by the Commission following approval from the presidency and presented to Parliament.
