### **Deepening Democracy**

Joseph Tharamangalam,Jos Chathukulam,2022-12-30 This book examines the renewed interest and commitment that countries across the world have shown in recent decades towards adopting models of decentralising or downsizing the state and moving towards more participatory models of government It examines systems of decentralised development such as self managing co-operatives from a global and comparative perspective with a focus on developing countries Drawing on examples from Kerala and a few other states in India as well as Cuba Bangladesh and South Africa among other countries the book offers critical perspectives on the positive impacts of these experiments and the promises these offer for the future It discusses the challenges of implementing these models how well these work in coordination with the civil society and the state issues of transparency and democratic oversight as well as corruption and capture of power due to entrenched structures of inequality The volume analyses welfare and development models and self management interventions in countering the effects of the COVID 19 pandemic It also looks at the merits and demerits of decentralisation in countering the global socioeconomic and environmental crisis and the rise of authoritarian populism in many countries The book will be of interest to students and researchers of development studies political science business community development social justice as well as of co-operative management programmes It will also appeal to students of political economy as well as

development professionals think tanks and policymakers

### Dilemmas of a Trading Nation Mireya Solis,2017-08-01

The balancing of competing interests and goals will have momentous consequences for Japan and the United States in their quest for economic growth social harmony and international clout Japan and the United States face difficult choices in charting their paths ahead as trading nations Tokyo has long aimed for greater decisiveness which would allow it to move away from a fragmented policymaking system favoring the status quo in order to enable meaningful internal reforms and acquire a larger voice in trade negotiations And Washington confronts an uphill battle in rebuilding a fraying domestic consensus in favor of internationalism essential to sustain its leadership role as a champion of free trade In Dilemmas of a Trading Nation Mireya

Sol's describes how accomplishing these tasks will require the skillful navigation of vexing tradeoffs that emerge from pursuing desirable but to some extent contradictory goals economic competitiveness social legitimacy and political viability Trade policy has catapulted front and center to the national conversations taking place in each country about their desired future direction economic renewal a relaunched social compact and projected international influence Dilemmas of a Trading Nation underscores the global consequences of these defining trade dilemmas for Japan and the United States decisiveness reform internationalism At stake is the ability of these leading economies to upgrade international economic rules and create incentives for emerging economies to converge toward these higher standards At play is the reaffirmation of a rules based international order that has been a source of postwar stability the deepening of a bilateral alliance at the core of America's diplomacy in Asia and the ability to reassure friends and rivals of the staying power of the United States In the execution of trade policy today we are witnessing an international leadership test dominated by domestic governance dilemmas

**Routledge Handbook of Food as a Commons** Jose Luis Vivero-Pol,Tomaso Ferrando,Olivier De Schutter,Ugo Mattei,2018-12-17 From the scientific and industrial revolution to the present day food an essential element of life has been progressively transformed into a private transnational mono dimensional commodity of mass consumption for a global market But over the last decade there has been an increased recognition that this can be challenged and reconceptualized if food is regarded and enacted as a commons This Handbook provides the first comprehensive review and synthesis of knowledge and new thinking on how food and food systems can be thought

interpreted and practiced around the old new paradigms of commons and commoning The overall aim is to investigate the multiple constraints that occur within and sustain the dominant food and nutrition regime and to explore how it can change when different elements of the current food systems are explored and re imagined from a commons perspective Chapters do not define the notion of commons but engage with different schools of thought the economic approach based on rivalry and excludability the political approach recognizing the plurality of social constructions and incorporating epistemologies from the South the legal approach that describes three types of proprietary regimes private public and collective and different layers of entitlement bundles of rights and the radical activist approach that considers the commons as the most subversive coherent and history rooted alternative to the dominant neoliberal narrative These schools have different and rather diverging epistemologies vocabularies ideological stances and policy proposals to deal with the construction of food systems their governance the distributive implications and the socio ecological impact on Nature and Society The book sparks the debate on food as a commons between and within disciplines with particular attention to spaces of resistance food sovereignty de growth open knowledge transition town occupations bottom up social innovations and organizational scales local food national policies South South collaborations international governance and multi national agreements Overall it shows the consequences of a shift to the alternative paradigm of food as a commons in terms of food the planet and living beings
