**Shaping Children** Saskia K. Nagel,2019-05-03 The volume offers a unique collection of articles on pediatric neuroenhancement from an international and multidisciplinary perspective In recent years the topic of neuroenhancement has become increasingly relevant in academia and practice as well as among the public While autonomous adults are free to choose neuroenhancement in children it presents its own ethical social legal and developmental issues A plethora of potential neurotechnological enhancement agents are on the market While the manifold issues surrounding the topic have been extensively discussed there is little work on the specific questions that arise in children and adolescents This book addresses this gap in the literature Next to conceptual and normative work on autonomy and self control the collection explores the implications for parenting and schooling and provides input for a discussion of public attitudes It is a valuable resource for the different academic communities confronted with questions of how to evaluate and approach enhancement in children and is of interest to neuroethicists scholars in applied ethics and neurology psychiatrists and psychologists as well as scientists developing enhancement interventions for children
