Handbook of Research on Inclusive and Accessible Education

Maguvhe, Mbulaheni Obert, Mpya, Nwacoye Gladness, Sadiki, Marubini, Christinah, 2024-02-16 In the vast expanse of education, a pervasive issue remains in the marginalization and lack of visibility of individuals with disabilities. Despite a strong desire for inclusivity, recent research suggests that fewer than 5% of children with disabilities in 51 countries across sub-Saharan Africa and South Asia are enrolled in primary school. This exclusion is not solely in enrollment numbers; even those who manage to attend face learning environments ill-equipped to adapt to their needs, leading to further isolation. Girls with disabilities in particular endure heightened vulnerability to abuse, reflecting a systemic failure to provide an environment that fosters equality, dignity, and respect for all. The *Handbook of Research on Inclusive and Accessible Education* emerges as an inspiration for change, providing a profound solution to the persistent issue.

of exclusion The book encapsulates a collective effort to reimagine education It advocates for a paradigm shift moving away from the confinement of special schools and towards inclusive mainstream settings By addressing controversies sharing successes and outlining prospects the book serves as a comprehensive guide for special school governing bodies curriculum advisors university lecturers and all stakeholders committed to reshaping education Foreign Policy Steve|Dunne Smith (Tim|Hadfield, Amelia|Kitchen, Nicholas|Smith, Steve),2024
