Burnt by Democracy Jacqueline Kennelly, 2023-11-30 Burnt by Democracy traces the political ascendancy of neoliberalism and its effects on youth The book explores democracy and citizenship as described in interviews with over forty young people ages 16 to 30 who have either experienced homelessness or identify as an activist living in five liberal democracies Canada Australia New Zealand the United States and the United Kingdom Highlighting significant cuts to social and affordable housing astronomical increases in the costs of higher education and the

transformation and erosion of state benefits systems Jacqueline Kennelly argues that democracy's decline is not occurring because young people are apathetic or focused on informal politics or unaware of their civic duties. Rather, it is because of collective misunderstanding about how democracy is actually structured how individuals learn to participate and how growing wealth inequality has undermined the capacity of those at the bottom to meaningfully advocate for changes that might improve their conditions. Against a vivid and often heart breaking backdrop of stories from young people struggling to survive and thrive under conditions of ever expanding state retrenchment and inequality, Burnt by Democracy makes a timely and impassioned plea for protecting and strengthening democracy by truly levelling the playing field for all. transfer programmes labour and production inclusion programmes and social pensions are being implemented in Latin American and Caribbean countries with the aim of ending poverty and reducing inequalities throughout the life cycle This book offers an up to date analysis of these programmes and the way they relate to labour inclusion and analyses ongoing debates regarding the possible incentives and disincentives they create in terms of the labour supply formalization and child labour among the target population Considering that poverty is a structural problem of highly unequal societies the thesis that poverty is due to a lack of effort on the part of the poor is argued to be an expression of the strong prejudice against those living in poverty the great majority of whom work or are actively seeking employment but are hampered by the large decent work deficits existing in the region From an integrated and rights based perspective public policies should

simultaneously address the twofold challenge of social and labour inclusion in order to achieve basic thresholds of well being by ensuring income universal access to good quality social services and opportunities for decent work
