3 4 3 From Unlovable To Lovable:

3-4-3 John D. Ellis, 2014 **3-4-3 from Unlovable to Lovable** John D. Ellis, 2014-10-30 *The Paradox of Hope* Justin D. Klassen, 2011-11-14 In contemporary public discourse the supposedly comprehensive explanatory power of reason is used to justify a thoroughgoing suspicion of religion In recent decades the critiques of postmodernism have generated a different kind of suspicion by construing history as a process that is too arbitrary to be narrated either by modern reason or by religion In light of these developments a question arises regarding the appropriate theological response to such forms of suspicion both of which threaten not just religion but our sense of human agency as such Does the retrieval of a meaningful religious subjectivity in a climate of suspicion demand a renewed emphasis upon theology's rhetorical persuasiveness as Radical Orthodoxy has recently proposed Or does identifying the believing subject with theology's grammar fail to attend to some of the challenges posed by such suspicion The Paradox of Hope answers these questions in an original and provocative way by clarifying the complex relationship between post secular theology and the work of Soren Kierkegaard Ultimately Klassen argues that Kierkegaard's influence is crucial albeit obscured in current post secular theological imperatives and that the Dane's eschewal of persuasion in favor of hope's inexplicable resolve provides a more adequate response to the nihilism of contemporary suspicion than do the rhetorical proposals currently on offer In light of this argument The Paradox of Hope also rehabilitates some of the voices typically excluded by contemporary theology's rhetoric including those of Heidegger Derrida and Levinas Freedom: The End of the Human Condition Jeremy Griffith, 2016-05-24 FREEDOM has its own very informative website visit www.humancondition.com The fastest growing realization everywhere is that humanity can't go on the way it is going Indeed the great fear is we're entering endgame where we appear to have lost the race between self destruction and self discovery the race to find the psychologically relieving understanding of our good and evil afflicted human condition Well astonishing as it is this book by biologist Jeremy Griffith presents the 11th hour breakthrough biological explanation of the human condition necessary for the psychological rehabilitation and transformation of our species The culmination of 40 years of studying and writing about our species psychosis FREEDOM delivers nothing less than the holy grail of insight we have needed to free ourselves from the human condition It is in short as Professor Harry Prosen a former president of the Canadian Psychiatric Association asserts in his Introduction The book that saves the world Griffith has been able to venture right to the bottom of the dark depths of what it is to be human and return with the fully accountable true explanation of our seemingly imperfect lives At long last we have the redeeming and thus transforming understanding of human behaviour And with that explanation found all the other great outstanding scientific mysteries about our existence are now also able to be truthfully explained of the meaning of our existence of the origin of our unconditionally selfless moral instincts and of why we humans became conscious when other animals haven't Yes the full story of life on Earth can finally be told and all of these incredible breakthroughs and insights are presented here in this greatest of all
