engineering and science disciplines in order to comprehensively cover pollutant fate and transport in environmental  
multimedia This book presents and integrates all aspects of fate and transport chemistry modeling various forms of  
assessment and the environmental legal framework It approaches each of these topics initially from a conceptual perspective  
before explaining the concepts in terms of the math necessary to model the problem so that students of all levels can learn  
and eventually contribute to the advancement of water quality science The first third of Pollutant Fate and Transport in  
Environmental Multimedia is dedicated to the relevant aspects of chemistry behind the fate and transport processes It  
provides relatively simple examples and problems to teach these principles The second third of the book is based on the  
conceptual derivation and the use of common models to evaluate the importance of model parameters and sensitivity analysis  
complex equation derivations are given in appendices Computer exercises and available simulators teach and enforce the  
concepts and logic behind fate and transport modeling The last third of the book is focused on various aspects of assessment  
toxicology risk benefit cost and life cycle and environmental legislation in the US Europe and China The book closes with a  
set of laboratory exercises that illustrate chemical and fate and transport concepts covered in the text with example results  
for most experiments Features more introductory material on past environmental disasters and the continued need to study  
environmental chemistry and engineering Covers chemical toxicology with various forms of assessment United States  
European and Chinese regulations and advanced fate and transport modeling and regulatory implications Provides a  
conceptual and relatively simple mathematical approach to fate and transport modeling yet complex derivations of most  
equations are given in appendices Integrates the use of numerous software packages pC pH EnviroLab Simulators Water
