[Networks for Faith Formation](#) Steve Emery-Wright, Ed Mackenzie, 2017-05-19 The spiritual formation of young people can often focus on encouraging their personal spiritual practices and perhaps linking them to a local youth group While both are important Networks for Faith Formation argues that a far wider set of relationships are needed to help faith grow The aim of Networks for Faith Formation is to describe and commend eight key networks relational bonds that nurture and nourish faith The eight networks are bedroom practices personal faith church family friends mentors small groups events and gatherings and mission and service The description of each network draws on biblical studies practical theology and the social sciences and practical ideas for helping young people engage with such networks are included throughout the book In a context where some overlook the complexity of spiritual formation Networks for Faith Formation is an important resource for church leaders youth ministers and parents seeking to help young people grow in faith Since relational bonds are key for people of any age it can also help all within the church understand the need for relationships in spiritual growth **Canfield Guide**
