## **Adult Autism Guide Practice Theory:**

The Adult Autism Assessment Handbook Davida Hartman,Tara O'Donnell-Killen,Jessica K Doyle,Dr Maeve Kavanagh,Dr Anna Day,Dr Juliana Azevedo,2023-02-21 Adult autism assessment is a new and fast growing clinical area for which professionals often feel ill equipped Autistic adults are often misdiagnosed which has enormous implications for their mental health This accessible and comprehensive adult autism assessment handbook covers the most up to date research and best practice around adult autism assessment It centers the person s internal experiences and sense making in clinical assessment rather than subjective observation thus providing the clinician with a truly paradigm shifting Neuro Affirmative approach to autism assessment Traditional clinical assessment tools are comprehensively explored and unpacked to enable the clinician to have full confidence in aligning traditional criteria to the Autistic person s subjective experiences Full of additional resources like language guidelines and an exploration of the common intersections between Autistic experience and the effects of trauma mental health and more this book supplies a breadth of knowledge on key areas that affect Autistic adults in everyday life The mixed team of neurotypical and neurodivergent authors describe lived experience of Autistic adults a how to for conducting Neuro Affirmative assessments and post assessment support alongside reflections from practice This book also has a directory of further resources including downloadable forms that you can use to prepare for your own assessments and a downloadable deep dive into Autistic perception This guide will also support professionals through every step of the assessment process *Adults with Autism* Stephen H. Morgan,1996 Adults with Autism Stephen H. Morgan,Hugh Morgan,1996-09-28 From childhood services to adult provision the needs of an individual develop and change yet the literature addressing specific adult requirements is scarce This volume sets out to fill this gap and provides practical help and guidance specifically for those caring for the growing recognised population of adults with autism Issues of theory and practice from both local and international perspectives are included Subsequent chapters analyse the implications arising from thought and behaviour inflexibility with emphasis on the management of transition and bereavement Models for practice in employment and further education and also pharmacological and educational approaches to mental health problems epilepsy and challenging behaviour are concluded by a chapter which develops many themes of this publication as the basis for a practitioner training programme in residential settings An essential guide for all those concerned with the care and well being of adults with autism including parents researchers practitioners and community care workers Break the Stigma: Autism Nichole E Scheerer ,April Hargreaves ,Catalina Sau Man Ng ,Matthew Daniel Lerner,2024-12-17 While awareness of neurodiversity and specific forms of neurodivergence such as autism has increased over the last few years autism stigma and prejudice against autistic people remains a critical issue that warrants further attention and investigation The experience of stigma and prejudice such as discriminatory actions and attitudes towards autistic individuals on both a personal and public level can have many negative impacts across one s lifetime These

experiences can lead people on the autism spectrum and their families to avoid seeking help which can delay diagnosis and access to supportive services of not only autism itself but also co occurring physical and psychological health needs Prejudiced beliefs against autistic people may lead to many forms of discrimination including but not limited to medical education and employment discrimination These attitudes can be built into society at a systemic level and influence policies that govern access to supports and our communities Additionally autism stigma and prejudice against autistic people such as stereotypical portrayals of autistic people in media and the language we use to describe autistic people can be invalidating to a person s autistic identity and to autistic culture Further the impacts of stigma and prejudice can be internalized by autistic individuals which may not only have poor effects on their wellbeing but also increase the want and or need to mask or camouflage to pass as non autistic Masking or camouflaging can reduce a person s sense of belonging self esteem sense of self worth and close relationships all of which are associated with poor outcomes It can also lead to avoidance of opportunities such as connection with other autistic individuals that could increase quality of life This Research Topic aims to showcase evidence on why the stigma surrounding autism and the prejudice against autistic people are so detrimental It hopes to provide insights into research and interventions on how stigma and prejudice can be tackled as well as awareness understanding and acceptance raised in the hope that the research presented will translate to best practice applications in clinical public health policy and community settings We invite researchers to submit a range of articles including but not limited to original research articles reviews meta analyses opinions perspectives and case reports to provide new evidence on the following Harmful impacts of stigma and prejudice on autistic people Interventions on reducing stigma surrounding and prejudice against autistic people Health promotion in autism i e approaches that increase the mental and physical well being of autistic people Interventions targeted at increasing understanding of autism and neurodiversity as well as increasing acceptance and advocacy of as well as allyship with autistic people Examining intersectionality in autism stigma and or prejudice towards autistic people of diverse backgrounds
