**The European Handbook of Central Asian Studies** Jeroen Fauve, Adrien De Cordier, B. J. Van Den Bosch, 2021-10-19

This handbook is the first collection of comprehensive teaching materials for teachers and students of Central Asian Studies CAS with a strong pedagogic dimension. It presents 22 chapters clustered around five themes with contributions from more than 19 scholars, all leading experts in the field of CAS and Eurasian Studies. This collection is not only a reference work for scholars branching out to different disciplines of CAS but also for scholars from other disciplines broadening their scope to CAS. It addresses post-colonial frameworks and also untangles topics from their Soviet reference frame. It aims to de-exoticize the region and draws parallels to European or to historically European occupied territories. In each chapter, the handbook provides a concise but nuanced overview of the topics covered in which way these have been approached by the mainstream literature and points out pitfalls, myths, and new insights, providing background knowledge about Central Asia to readers and intertwine this with an advanced level of insight to leave the readers equipped with a strong foundation to approach more specialized sources either in classroom settings or by self-study. In addition, the book offers a comprehensive glossary list of used abbreviations, overview of intended learning outcomes, and a smart index distinguishing between names, locations, concepts, and events. A list of recorded lectures to be found on YouTube will accompany the handbook either as instruction materials for teachers or visual aids for students. Since the authors themselves recorded the lectures related to their own chapters, this provides the opportunity to engage in a more personalized way with the authors. This project is being developed in the framework of the EISCAS project [www.eiscas.eu](http://www.eiscas.eu), co-funded by the Erasmus Program of the European Union.

*Drivers of Integration and Regionalism in Europe and Asia* Louis Brennan, Philomena Murray, 2015-05-22. This book examines the drivers of regionalism and integration in both Europe and Asia and seeks to forge comparative perspectives between the two regions. Comprising contributions from scholars, analysts, and policymakers, this volume explores and debates how and why regional bodies such as the European Union (EU) and the Association of Southeast Asian Nations (ASEAN) are formed and sustained. Furthermore, it examines the drivers of and impediments to regionalism and integration. The debates regarding what and who constitute drivers are presented in a fresh, thematic, and comprehensive manner. Leadership and core states are also critically examined, whilst material, ideational, and normative factors are all assessed comparatively. Significantly, in light of the global financial crisis, the book considers the role of crisis as a driver of regionalism and integration. This book will be of interest to students, scholars, and policymakers interested in Asian and European politics and comparative politics.

**Bridging Asia-Europe Relations** Sameer Kumar, 2025-10-08. This book provides a useful framework for addressing the various aspects of current Asia-Europe relations, including examinations of power transitions and geopolitics, values and pragmatism, climate change and sustainability, technology and innovation, and infrastructure and connectivity. It discusses the current state of affairs, the future of these relations, and the challenges and opportunities that lie

ahead for the two regions In modern times developments in infrastructure such as transportation and communication technologies have enhanced these regions connectivity Yet other geopolitical forces and power transitions are also influencing the stability of European Asian alliances sometimes in uncertain directions particularly as competition between China and the United States disrupts the global order The book also considers the impact of the ongoing Russian Ukrainian conflict in relation to Europe Asia diplomacy The book pivots on two fundamental questions How can the two regions bridge their differences and cooperate to meet common challenges And what opportunities and challenges arise for deeper political and economic integration in doing so A valuable resource for scholars policymakers and those interested in future of Asia Europe relations this book is a novel resource for researchers in political science and international relations sustainability studies sociocultural studies and all areas relating to Asian and European regionalism **Enhancing Asia-Europe**
