

**!** In order to prevent any accidents use the maximum prudence when driving the vehicle with accessories and anomalous loads, as this can reduce the scooter's stability, performance and safety.

**!** We recommend the use of original Piaggio spare parts, the only parts that offer the same quality guarantee as the original parts assembled on the vehicle.

It should be remembered that the use of non original spare parts causes the guarantee to become invalid.

**!** Piaggio markets its own line of accessories that are therefore also recognized and guaranteed in relation to their use. It is therefore indispensable to turn to an **Authorized Vespa Dealer or Service Centre**, in order to select them and have them correctly assembled. The use of non original accessories and/or those not corresponding to the product model can compromise the stability and function of the vehicle, leading to consequent dangerous driving and relative risk to the driver.

**!** Never drive the scooter fitted with accessories (trunk and/or wind screen) at a speed of over 62 mph (100 km/h). The vehicle can be driven at a higher speed without the aforesaid accessories within the limits established by law. If non original Piaggio accessories are installed on the scooter, there is an anomalous load. The scooter is not in optimal general conditions and when the atmospheric conditions do not allow it, the speed should be further reduced.
