Ecological Tax Reform A Policy Proposal For Sustainable Development:

Ecological Tax Reform Ernst Von Weizsacker, Jochen Jesinghaus, 1992-07-01 Carbon taxes energy taxes and related measures are gaining increasing popularity around the world as governments activists and international bodies seek an effective way of integrating economic and environmental policies Ecological Tax Reform offers a timely exploration of this key component of the global fight against climate change Providing a useful overview of the arguments for and against environmental taxation the book s central proposition is that such taxes can play an instrumental role in promoting environmentally friendly industry as well as raising valuable funds for economic development and state efforts to combat global warming The authors go on to argue that such taxes could be usefully applied to such diverse economic areas as fossil fuel consumption nuclear energy water raw materials and waste Concise and accessible to undergraduates as well as the general reader Ecological Tax Reform represents the perfect introduction for those seeking to understand the role which taxation can play in achieving a more sustainable society

Implementing Ecological Integrity Philippe J. Crabbé, Philippe Crabbé, 2000-06-30 The concept of ecological integrity is used in environmental policy but is usually left undefined The definition proposed by the Integrity Group is quite demanding it tends to focus on a nature that has been impacted by human activity as little as possible viz located in remote areas emphasising and protecting its self organising capacities for life as a product of the natural history of ecosystems The demand is for an ethical reverence for life in all its manifestations In its study of ecological integrity the book s strength is its true multidisciplinary strongly grounded in ecology thermodynamics ethics and complex systems approach It covers a broad international terrain it documents geographically wide ranging case studies It is thus applied in character and does not remain at the purely conceptual level

The Transition to Sustainability Timothy O'Riordan, 2013-11-05 The Transition to Sustainability details how all nations are repositioning their economies their societies and their collective purpose to maintain all life on Earth peacefully healthily equitably and with sufficient wealth to ensure that all are content in their survival From the Preface The governments of Europe are committed in principle to the implementation of sustainable development policies What will this mean in practice Most importantly how compatible is such implementation with other commitments to economic growth and competitive markets Can it be achieved and what are the implications for all other policy areas This book looks at the implications for government business taxation planning measures of change and local communities within the European Union Country case studies include Germany Norway Greece Portugal and the UK The Editors conclude by giving an overview of progress so far and offer pointers for the future Policy makers researchers and students across the range of social sciences will find this a valuable and groundbreaking book

The Law and Politics of Sustainability Klaus Bosselmann, Daniel S. Fogel, J.B. Ruhl, Patricia Wouters, 2010-11-30 The Law and Politics of Sustainability explores efforts made to address pressing environmental concerns through legislation conventions directives treaties and protocols Articles explain the mechanics of environmental law the concepts that shape

sustainable development case studies and rulings that have set precedents approaches to sustainable development taken by legal systems around the world and more Experts and scholars in the field raise provocative questions about the effectiveness of international law versus national law in protecting the environment and about the effect of current laws on future generations They analyze the successes and shortcomings of present legal instruments corporate and public policies social movements and conceptual strategies offering readers a preview of the steps necessary to develop laws and policies that will promote genuine sustainability

Cents and Sustainability Cheryl Desha,Charlie Hargroves,Michael Harrison Smith,2010-09-23 *Cents and Sustainability* is a clear sighted response to the 1987 call by Dr Gro Brundtland in *Our Common Future* to achieve a new era of economic growth that is forceful and at the same time socially and environmentally sustainable The Brundtland Report argued that not only was it achievable but that it was an urgent imperative in order to achieve a transition to sustainable development while significantly reducing poverty and driving clean and green investment With some still arguing for significantly slowing economic growth in order to reduce pressures on the environment this new book *Cents and Sustainability* shows that it is possible to reconcile the need for economic growth and environmental sustainability through a strategy to decouple economic growth from environmental pressures combined with a renewed commitment to achieve significant environmental restoration and poverty reduction Beginning with a brief overview of some of the most pressing environmental challenges of our time the book then explains decoupling theory overviews a number of factors that can undermine and even block efforts to decouple in both developed and developing countries and then discusses a number of key considerations to assist the development of national decoupling strategies The book then focuses on presenting evidence to support greater action not just on climate change but also on decoupling economic growth from the loss of biodiversity and the deterioration of natural systems freshwater extraction waste production and air pollution In the lead up to the 2012 United Nations Earth Summit and beyond *Cents and Sustainability* will be a crucial guide to inform and assist nations to develop strategies to significantly reduce environmental pressures strengthen their economy create jobs and reduce poverty I commend the team from The Natural Edge Project and their partners for undertaking to develop a response to *Our Common Future* to mark its 20th anniversary Dr Gro Brundtland Sequel to *The Natural Advantage of Nations* Published with The Natural Edge Project

Ecological Integrity David Pimentel, Laura Westra, Reed F. Noss, 2000-11 Global Integrity Project has brought together leading scientists and thinkers from around the world to examine the combined problems of threatened and unequal human well being degradation of the ecosphere and unsustainable economies Based on the proposition that healthy functioning ecosystems are a necessary prerequisite for both economic security and social justice the project is built around the concept of ecological integrity and its practical implications for policy and management Ecological Integrity presents a synthesis and findings of the project Contributors including Robert Goodland James Karr Orié Loucks Jack Manno William Rees Mark Sagoff Robert Ulanowicz Philippe Crabbe Laura Westra David Pimentel Reed Noss and others examine the key elements of ecological integrity and consider what happens when integrity is lost or compromised The book examines

historical and philosophical foundations of the concept of ecological integrity explores how integrity can be measured
examines the relationships among ecological integrity human health and food production looks at economic and ethical
issues that need to be considered in protecting ecological integrity offers concrete recommendations for reversing ecological
degradation while promoting social and economic justice and welfare Contributors argue that there is an urgent need for
rapid and fundamental change in the ecologically destructive patterns of collective human behavior if society is to survive
and thrive in coming decades Ecological Integrity is a groundbreaking book that integrates environmental science economics
law and ethics in problem analysis synthesis and solution and is a vital contribution for anyone concerned with interactions
between human and planetary health **Proceedings ... Annual Conference on Taxation ... and Minutes of the**
