Organization,2008 **Crisis Preparedness** Stella R. Quah,2007 Throughout history nations have waged war against epidemics from bubonic plague to pulmonary tuberculosis Today we confront HIV AIDS SARS and avian influenza among other major infectious diseases Scientists around the world scrutinize viruses and bacteria more intently than ever Yet while scientific advances are crucial they are insufficient The world is not well prepared for the next health crisis This timely book argues that the battle against infectious disease epidemics must be fought on two fronts The first of course is the laboratory The second is the wider social context that involves ordinary individuals and groups legislators and the state The failure to contain HIV AIDS and the emergence of new infectious diseases highlight the inadequacies of current preventive and management approaches to deal with epidemics The authors of Crisis Preparedness offer perspectives from social science epidemiology and public health collectively seeking to answer the question How can we prepare for the next global epidemic

Measuring Effectiveness in Humanitarian and Development Aid Andre M. N. Renzaho,2007 Donor countries are currently scaling up their aid programmes in response to strategies proposed through the Millennium Development Goals Recent positive research on the impact of foreign development aid has led to increased expectations on the part of donor countries Research suggests that per capita income growth over the last decade would have been lower in the absence of aid and also that public sector expenditure on health and education in developing countries would not have been as great without aid inflows However there still remain many significant gaps in knowledge on aid allocation and effectiveness This book addresses a number of these gaps and provides many new and important analytical insights into aid Among the topics covered are the interface between aid allocation and perceptions of aid effectiveness the inter recipient concentration of aid from non government organizations the year on year volatility of aid impacts of aid on public sector fiscal aggregates and evaluation of the country level impacts of aid The book is an essential companion for professionals engaged in aid policy reforms and also for scholars in the areas of development economics international finance and economics *Transactions of the National Academy of Science and Technology* ,2010 *Denver Journal of International Law and Policy* ,2014

National Tuberculosis (TB) Monitoring & Evaluation Plan, 2009-2011 ,2009 **The Third World in Social Science Perspective** ,2008 *Global tuberculosis report 2023* World Health Organization,2023-11-07 The Global Tuberculosis Report 2023 published by the World Health Organization provides a comprehensive overview of the current status of the tuberculosis epidemic The report highlights the global commitments strategies and targets set by world leaders

to combat TB It presents key findings and messages emphasizing the importance of translating political commitments into actionable plans at the country level The report includes data collected from 215 countries and areas offering insights into TB incidence mortality diagnosis treatment prevention and financing The intended audience includes policymakers healthcare professionals and researchers involved in TB response and public health initiatives *Annual Epidemiological Report on Communicable Diseases in Europe 2010* European Centre for Disease Prevention and Control,2010
