

Biology Unit 1 - Notes

1.1 - Cell Theory

Living organisms are composed of cells

Cells are the **fundamental building blocks** of all living organisms

The smallest organisms are **unicellular**
↳ they consist of **one cell**

Larger organisms are **multicellular**
↳ they are composed of **many cells**

Common Features

- every living cell is **surrounded by a membrane**
↳ which separates the cell contents from everything else from outside
- cells contain **genetic material** which stores all of the instructions needed for the cell's activities.
- many of these activities are **chemical reactions**, catalyzed by **enzymes** produced inside the cell.
- cells have their **own energy release system** that powers all of the cell's activities

Cell Theory

- 1- Cells are the **smallest unit of life**
- 2- All living things are composed of cell
- 3- Cells only **arise from pre-existing cells**

$$\text{Magnification} = \frac{\text{image size}}{\text{actual size}}$$

Cell Theory's exceptions

① Striated Muscle

they are **much larger** than most animal cells

② Aseptate Hypha Fungi

fungi consist of **narrow thread-like structures** called **hyphae**

in some types of fungi, the hyphae are divided into small **cell walls** called **septa**.

each hypha is an **uninterrupted tube-like structure** with **many nuclei** spread along it.

Challenges the idea that living structures're composed of **discrete cells**
(individual, separate, distinct)

Some fungi are not partitioned by septa & hence have a **continuous cytoplasm** along the length of the hyphae

8study Guide Biology

Paul R. Pinet

8study Guide Biology:

Eureka Math Grade 8 Study Guide Great Minds,2016-05-16 Eureka Math is a comprehensive content rich PreK 12 curriculum that follows the focus and coherence of the Common Core State Standards in Mathematics CCSSM and carefully sequences the mathematical progressions into expertly crafted instructional modules The companion Study Guides to Eureka Math gather the key components of the curriculum for each grade into a single location unpacking the standards in detail so that both users and non users of Eureka Math can benefit equally from the content presented Each of the Eureka Math Curriculum Study Guides includes narratives that provide educators with an overview of what students should be learning throughout the year information on alignment to the instructional shifts and the standards design of curricular components approaches to differentiated instruction and descriptions of mathematical models The Study Guides can serve as either a self study professional development resource or as the basis for a deep group study of the standards for a particular grade For teachers who are new to the classroom or the standards the Study Guides introduce them not only to Eureka Math but also to the content of the grade level in a way they will find manageable and useful Teachers familiar with the Eureka Math curriculum will also find this resource valuable as it allows for a meaningful study of the grade level content in a way that highlights the coherence between modules and topics The Study Guides allow teachers to obtain a firm grasp on what it is that students should master during the year The Eureka Math Curriculum Study Guide Grade 8 provides an overview of all of the Grade 8 modules including Integer Exponents and Scientific Notation The Concept of Congruence Similarity Linear Equations Examples of Functions from Geometry Linear Functions Introduction to Irrational Numbers Using Geometry
