A Companion to the Great Western Schism (1378-1417) ,2009-09-30 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention

Conciliarism and Church Law in the Fifteenth Century Thomas E. Morrissey,2024-10-28 Crises are never the best of times and the era of the Great Western Schism 1378 1417 easily qualifies as one of the worst of times As a professor of canon law at the University of Padua and later cardinal and as a major theorist in the conciliarist movement Franciscus Zabarella 1360 1417 tried to do what a good legal mind does find and explicate a viable and legal solution to the crises of his time a solution that would stand up in his own era and for the generations that followed In this volume Thomas Morrissey looks at what he said wrote and did and places him and his thought in the context of the late medieval and early modern era how he reflected that world and how he influenced it Particular studies elucidate what he wrote on the authority and on the duty of the people in power what they could do and should do as well as what they should not do They also show how he explored the area of early constitution law and human rights in civil and religious society and that his work leads down the road to our modern constitutional democratic societies The volume includes two previously unpublished studies on the situation in Padua c 1400 and on a sermon from 1407 together with an introduction contextualizing the articles **The Age of the Great**
