COMPETITIVE exams for JOB s Colleges and Schools AUTHOR ADV DR MANISH DAS RUPALI BAURAH DAS CAREER JOB
COUNSELLORS AND BEST SELLING AUTHOR *Foreign Agricultural Economic Report* ,1961 Global Uncertainty and
the Volatility of Agricultural Commodities Prices Bertrand Munier,2012 The recent global financial crisis exposed the serious
limitations of existing economic and financial models Not only did macro models fail to predict the crisis they seemed
incapable of explaining what was happening to the economy Policymakers felt abandoned by the conventional tools of the
now obsolete Washington consensus and the World Trade Organization s oversimplified faith in free markets The traditional
models for agricultural commodities have so far failed to take into account the uncertain character of the global agricultural
economy and its ferocious consequences in food price volatility the worst in 300 years yielding hunger riots throughout the
world This book explores the elements which could help to close this fundamental modeling gap To what extent should
traditional models be questioned regarding agricultural commodities Are prices on these markets foreseeable Can their
evolution be either predicted or convincingly simulated and if so by which methods and models Presenting contributions from
acknowledged experts from several countries and backgrounds professors at major international universities or researchers
within specialized international organizations the book concentrates on four issues the role of expectations and capacity of
prediction policy issues related to development strategies and food security the role of hoarding and speculation and finally
global modeling methods The book offers a renewed wisdom on some of the core issues in the world economy today and puts
forward important innovations in analyzing these core issues among which the modular modeling design the Momagri model
being a seminal example of it Reading this book should inspire fruitful revisions in policy making to improve the welfare of
