Yearbook of International Organizations 2013-2014 (Volumes 1a-1b) Union Of International Associations, Union of International Associations, 2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events

Microeconomics Samuel Bowles, Simon D. Halliday, 2022 The authors bring into the classroom the ideas that today's researchers and policy makers use including behavioral economics game theory and incomplete contracts Modern microeconomics is applied to pressing issues that students care about inequality climate change and innovation and illustrated with empirical case studies

**Mobile Museums** Felix Driver, Mark Nesbitt, Caroline Cornish, 2021-04-19 Mobile Museums presents an argument for the importance of circulation in the study of museum collections past and present It brings together an impressive array of international scholars and curators from a wide variety of disciplines including the history of science museum anthropology and postcolonial history to consider the mobility of collections The book combines historical perspectives on the circulation of museum objects in the past with contemporary accounts of their re mobilisation notably in the context of Indigenous community engagement Contributors seek to explore processes of circulation historically in order to re examine inform and unsettle common assumptions about the way museum collections have evolved over time and through space By foregrounding questions of circulation the chapters in Mobile Museums collectively represent a fundamental shift in the understanding of the history and future uses of museum collections The book addresses a variety of different types of collection including the botanical the ethnographic the economic and the archaeological Its perspective is truly global with case studies drawn from South America West Africa Oceania Australia the United States Europe and the UK Mobile Museums helps us to understand why the mobility of museum collections was a fundamental aspect of their history and why it continues to matter today Praise for Mobile Museums This book advances a paradigm shift in studies of museums and collections A distinguished group of contributors reveal that collections are not dead assemblages The nineteenth and twentieth centuries were marked by vigorous international traffic in ethnography and natural history specimens that tell us much about colonialism travel and the history of knowledge and have implications for the remobilisation of museums in the future Nicholas Thomas University of Cambridge The first major work to examine the implications and consequences of the migration of materials from one scientific or cultural milieu to another it highlights the need for a more nuanced understanding of collections and offers insights into their potential for future re mobilisation Arthur MacGregor

**The State of Conservation** Joshua Nygren, 2025-01-06 In the twentieth century natural resource conservation emerged as a vital force in US politics laying the groundwork for present day sustainability Merging environmental agricultural and political history Joshua Nygren examines the political economy and ecology of agricultural conservation through the lens of the conservation industrial complex This evolving public private network which united the US Department of Agriculture Congress local and national organizations and the agricultural

industry guided soil and water conservation in rural America for much of the century Contrary to the classic tales of US environmental politics and the rise and fall of the New Deal Order this book emphasizes continuity Nygren demonstrates how the conservation policies programs and partnerships of the 1930s and 1940s persisted through the age of environmentalism and how their defining traits anticipated those typically associated with late twentieth century political culture The conservation industrial complex promoted a development oriented brand of conservation that aided the rise of large scale capital intensive agriculture which continues today It also reshaped the physical and political landscapes of the country leading to impressive conservation victories and spectacular failures by privileging some environments degrading others and intensifying farm depopulation In the name of environmental protection agricultural conservation made rural America less equal

*The Devil's Fruit* Dvera I. Saxton,2021-02-12 *The Devil s Fruit* describes the facets of the strawberry industry as a harm industry and explores author Dvera Saxton s activist ethnographic work with farmworkers in response to health and environmental injustices She argues that dealing with devilish as in deadly depressing disabling and toxic problems requires intersecting ecosocial emotional ethnographic and activist labors Through her work as an activist medical anthropologist she found the caring labors of engaged ethnography take on many forms that go in many different directions Through chapters that examine farmworkers embodiment of toxic pesticides and social and workplace relationships Saxton critically and reflexively describes and analyzes the ways that engaged and activist ethnographic methods frameworks and ethics aligned and conflicted and in various ways helped support still ongoing struggles for farmworker health and environmental justice in California These are problems shared by other agricultural communities in the U S and throughout the world

*The Cultivator & Country Gentleman* ,1877 **Accessions List, Eastern and Southern Africa** Library of Congress. Library of Congress Office, Nairobi, Kenya,1993 *A Political Economy of the Middle East* Melani Cammett,Ishac Diwan,Alan Richards,John Waterbury,2015-02-24 *A Political Economy of the Middle East* is the most comprehensive analysis of the political economy of development in the contemporary Middle East over the past several decades examining the interaction of economic development processes state systems state policies and social actors in the Middle East The fourth edition with new authors Melani Cammett and Ishac Diwan has been thoroughly revised with two new introductory chapters that provide an updated framework with which to understand and study the many changes in demography education labor markets urbanization water and agriculture and international labor migration in the recent years The new edition also includes a new chapter that charts the political economy of the Gulf states and in particular the phenomenal growth of oil economies a new chapter on the growth of the private sector and its effects in the region a new chapter on the rise of crony capitalism and increased coverage of the changes in civil society and social movements in the region including an exploration of the causes dynamics consequences and aftermath of the Arab uprisings

*Seed Money* Bartow J. Elmore,2021-10-12 Winner of the 2022 IACP Award for Food Issues and Matters Finalist for the 2022 George Perkins Marsh Prize Finalist for the 2022 Hagley

Prize in Business History An authoritative and eye opening history that examines how Monsanto came to have outsized influence over our food system Monsanto a St Louis chemical firm that became the world s largest maker of genetically engineered seeds merged with German pharma biotech giant Bayer in 2018 but its Roundup Ready seeds introduced twenty five years ago are still reshaping the farms that feed us When researchers found trace amounts of the firm s blockbuster herbicide in breakfast cereal bowls Monsanto faced public outcry Award winning historian Bartow J Elmore shows how the Roundup story is just one of the troubling threads of Monsanto s past many told here and woven together for the first time A company employee sitting on potentially explosive information who weighs risking everything to tell his story A town whose residents are urged to avoid their basements because Monsanto s radioactive waste laces their homes foundations Factory workers who peel off layers of their skin before accepting cash bonuses to continue dirty jobs An executive wrestling with the ethics of selling a profitable product he knew was toxic Incorporating global fieldwork interviews with company employees and untapped corporate and government records Elmore traces Monsanto s astounding evolution from a scrappy chemical startup to a global agribusiness powerhouse Monsanto used seed money derived from toxic products including PCBs and Agent Orange to build an agricultural empire promising endless bounty through its genetically engineered technology Skyrocketing sales of Monsanto s new Roundup Ready system stunned even those in the seed trade who marveled at the influx of cash and lavish incentives into their sleepy sector But as new data emerges about the Roundup system and as Bayer faces a tide of lawsuits over Monsanto products past and present Elmore s urgent history shows how our food future is still very much tethered to the company s chemical past
