Agriculture Paper September 2014 Memo:

Transition to Agricultural Market Economies Andrew Schmitz, William H Meyers, 2015-06-22 It is believed that the major countries of the former Soviet Union specifically Kazakhstan Russia and Ukraine KRU region are the part of the world with the most potential to increase food supplies and strengthen world food security This book examines the future of the KRU countries in global agricultural markets and will examine a number of agricultural sectors including meat dairy fruits and vegetables However particular attention is paid to the region s potential expansion of the grain sector and why the KRU region emerged during the 2000s as a major grain exporter and its potential to further expand grain production and exports It also examine the issues of environmental constraints and trade offs for agriculture sustainability and the possible effects of climate change

Forest and land-use governance in a decentralized Indonesia: A legal and policy review Fitriani Ardiansyah, Andri Akbar Marthen, Nur Amalia, 2015-10-02 Which levels of government hold powers over forests and land use in Indonesia Which powers and responsibilities are centralized and which are decentralized What role can citizens play This report reviews the statutory distribution of powers and responsibilities across levels and sectors It outlines the legal mandates held by national regional and local governments with regard to land and forests including titling forest concessions oil and minerals investments oil palm plantations conservation land use planning and more The review considers national legislation as of 2014 and incorporates important reforms in early 2015 After a short introduction the second section describes the decentralization process including mechanisms for public participation The third section outlines sources of revenue available to different government levels from forest fees and payments for environmental services The fourth section details the specific distribution of powers and arenas of responsibility related to multiple land use sectors across levels and among offices within levels and the fifth and final section refers specifically to adat law Summary tables are included for each different policy arena to facilitate analysis across government levels and functions policy making administration control and monitoring auditing and sanction

Background Notes on Sustainable, Productive and Resilient Agro-Food Systems: Value chains, human capital, and the 2030 Agenda Food and Agriculture Organization of the United Nations, Organisation for Economic Co-operation and Development, 2019-07-18 Agricultural production more than tripled between 1960 and 2015 owing in part to productivity enhancing technologies and a significant expansion in the use of land water and other natural resources for agricultural purposes Today more than ever agriculture faces multiple and complex challenges It has to provide sufficient safe and nutritious food to meet boosting demand by a growing and progressively more prosperous population and ensure food security for all Prepared to support the G20 Presidency of Japan and the G20 Agriculture Deputies these three background notes provide an overview on the following interlinked issues i the policy challenges for strengthening the participation of farmers into modern value chains and promoting value addition inclusion sustainability and rural economic growth ii the need for a transformation in the skillset of agricultural workers and a renewed focus on human capital

development in agriculture and iii the contribution of agriculture to the realization of the 2030 Agenda for Sustainable Development

Survey of Economic and Social Developments in the Arab Region 2015-2016 United Nations Publications,2017-01-04 Trends can be noted for the past five years and with this in mind the 2015 16 Survey will utilize recent data in order to take stock of the impact of instability and conflict and address the foregone growth and output and destructive effects of this period

Environmental Water Markets and Regulation Katherine Owens,2016-11-18 River systems around the world are degraded and are being used unsustainably Meeting this challenge requires the development of flexible regimes that have the potential to meet essential consumptive needs while restoring environmental flows This book focuses on how water trading frameworks can be repurposed for environmental water recovery and aims to conceptualise the most appropriate role for law in supporting recovery through these frameworks The author presents a comprehensive study of the legal frameworks in four jurisdictions the States of Oregon and Colorado in the western United States the province of Alberta in Canada and the Murray Darling Basin in Australia Basin State of New South Wales A close comparative analysis of these four jurisdictions reveals a variety of distinctive regulatory arrangements and collaborations between public and private actors In all cases the law has been deployed to steer and coordinate these water governance activities The book argues that each regime is based on a particular regulatory strategy with different conceptions of the appropriate roles for and relationships between various actors and institutions Legal frameworks do not have the capacity to rationalise and provide an overarching and absolute solution to the complex environmental and governance issues that arise in the context of environmental water transactions Rather the role of law in this context needs to be reconceptualised within the paradigm of regulatory capitalism as establishing and maintaining the limits within which regulatory participants can operate innovate and collaborate

Nimble Baba Prasad,2015-04-24 The world today can be best described by one word turbulence As change rages all around how can you as an individual or as an organization take advantage of unexpected opportunities and succeed in difficult circumstances In a book that challenges traditional notions of strategy Baba Prasad draws on his research at some of the world s best business schools to show how intelligence can help you and your business navigate this maelstrom The Intelligences Framework presented in Nimble goes beyond the common management concept of agility it presents an immensely practical and hands on approach for companies and individuals to develop five kinds of intelligences and apply them in different settings for maximum benefit Bridging strategy leadership and innovation and with vivid illustrations Nimble provides a path breaking assessment methodology and a systematic four step approach that every company and individual can use to lead amid turbulence

Shared Governance for Sustainable Working Landscapes Timothy M. Gieseke,2016-08-05 Sustaining our agricultural landscapes is no longer just a technical scientific or even political problem but it has evolved into a socially complex so called wicked problem of conflicting social governance and economics This creates an extreme economic obstacle where the value of ecosystem services remains low and diffuse and the

transactions costs remain high and multiple Using Uber like business platform technology and a shared governance model a symbiotic demand for environmental benefits is created Enabling multi sector transactions for environmental benefits this platform innovation would remedy the tragedy of the commons the economic nemesis to achieving landscape sustainability In a nutshell to sustain our agricultural landscapes a transdisciplinary approach supported by a shared governance model housed within a multi sided platform is needed This book introduces an assessment framework identifying governance actors styles and ratios for socio ecological systems The assessment uses a new governance compass to identify the types of actors completing which tasks and identifies the styles of governance used to complete the tasks It is aimed to anyone involved in sustainability science agricultural policy planning or integrated landscape design Food in America Andrew F. Smith, 2017-02-16 This three volume work examines all facets of the modern U S food system including the nation s most important food and agriculture laws the political forces that shape modern food policy and the food production trends that are directly impacting the lives of every American family Americans are constantly besieged by conflicting messages about food the environment and health and nutrition Are foods with genetically modified ingredients safe Should we choose locally grown food Is organic food better than conventional food Are concentrated animal feed operations destroying the environment Should food corporations target young children with their advertising and promotional campaigns This comprehensive three volume set addresses all of these questions and many more probing the problems created by the industrial food system examining conflicting opinions on these complex food controversies and highlighting the importance of food in our lives and the decisions we make each time we eat The coverage of each of the many controversial food issues in the set offers perspectives from different sides to encourage readers to examine various viewpoints and make up their own minds The first volume Food and the Environment addresses timely issues such as climate change food waste pesticides and sustainable foods Volume two entitled Food and Health and Nutrition addresses subjects like antibiotics food labeling and the effects of salt and sugar on our health The third volume Food and the Economy tackles topics such as food advertising and marketing food corporations genetically modified foods globalization and megagrocery chains Each volume contains several dozen primary documents that include firsthand accounts written by promoters and advertisers journalists politicians and government officials and supporters and critics of various views related to food and beverages representing speeches advertisements articles books portions of major laws and government documents to name a few These documents provide readers additional resources from which to form informed opinions on food issues **Outlook on Agriculture** ,2015
