Complexity, Security and Civil Society in East Asia Peter Hayes, Kiho Yi, 2015-06-22 Complexity Security and Civil Society in East Asia offers the latest understanding of complex global problems in the region, including nuclear weapons, urban insecurity, energy and climate change. Detailed case studies of China, North and South Korea and Japan demonstrate the importance of civil society and civic diplomacy in reaching shared solutions to these problems in East Asia and beyond. Each chapter describes regional civil society initiatives that tackle complex challenges to East Asia's security. In doing so, the book identifies key pressure points at which civil society can push for constructive changes, especially ones that reduce the North Korean threat to its neighbors. Unusually, this book is both theoretical and practical. Complexity Security and Civil Society in East Asia presents strategies that can be led by civil society and negotiated by its diplomats to realize peace, security and sustainability worldwide. It shows that networked civic diplomacy offers solutions to these urgent issues that official complex diplomacy cannot. By providing a new theoretical framework based on empirical observation, this volume is a must-read for diplomats, scholars, students, journalists, activists and individual readers seeking insight into how to solve the crucial issues of our time. **Nimble** Baba Prasad, 2015-04-24 The world today can be best described by one word: turbulence. As change rages all around, how can you, as an individual or as an organization, take advantage of unexpected opportunities and succeed in difficult circumstances? In a book that challenges traditional notions of strategy, Baba Prasad draws on his research at some of the world's best business schools to show how intelligence can help you and your business navigate this maelstrom. The Intelligences Framework presented in *Nimble* goes beyond the common management concept of agility; it presents an immensely practical and hands-on approach for companies and individuals to develop five kinds of

intelligences and apply them in different settings for maximum benefit Bridging strategy leadership and innovation and with vivid illustrations Nimble provides a path breaking assessment methodology and a systematic four step approach that every company and individual can use to lead amid turbulence **Cities** Ian Douglas,2013-05-30 Cities are amongst our greatest creations Yet at the start of the twenty first century there is increasing concern over their unchecked expansion and the detrimental effect this is having on the planet as induced climate change and ever increasing demands upon the world s resources take effect How can we make the world s cities more sustainable Ian Douglas tells the story of cities why they exist how they have evolved the problems they have encountered and those they will face as our century progresses Global in geographical coverage and ranging from the cities of the classical world to the megacities of today it is the first comprehensive environmental history of cities **Statelessness** William Conklin,2014-12-01 Statelessness is a legal status denoting lack of any nationality a status whereby the otherwise normal link between an individual and a state is absent The increasingly widespread problem of statelessness has profound legal social economic and psychological consequences but also gives rise to the paradox of an international community that claims universal standards for all natural persons while allowing its member states to allow statelessness to occur In this powerfully argued book Conklin critically evaluates traditional efforts to recognize and reduce statelessness The problem he argues rests in the obligatory nature of law domestic or international By closely analysing a broad spectrum of court and tribunal judgments from many jurisdictions Conklin explains how confusion has arisen between two discourses the one discourse inside the other as to the nature of the international community One discourse a surface discourse describes a community in which international law justifies a state s freedom to confer withdraw or withhold nationality This international community incorporates state freedom over nationality matters bringing about the de jure and effective stateless condition The other discourse an inner discourse highlights a legal bond of socially experienced relationships Such a bond judicially referred to as effective nationality is binding upon all states and where such a bond exists harm to a stateless person represents harm to the international community as a whole **India, 2012** Research, Reference and Training Division,2012 [The Indian Journal of Agricultural Sciences](#) ,2014-07 **Latin American Economic Outlook** Organization for Economic Cooperation and Development,2015 This publication is devoted to the evolving relationship between Latin America and China as well as its prospects in the long term China s transformation involves a gradual shift in its development strategy including the rebalancing process from investment to consumption the demographic transition the structural transformation towards high value added goods and services and a going out policy to approach other regions This report lays the ground for discussing future trends in the relationship between China and Latin America given these changing patterns Based on the analysis of potential transmission channels of China s new model to the region which include issues on trade finance and skills the outlook aims to identify strategies and policy responses for Latin America to overcome development challenges Latin America
