Structure-function metrology of proteins Alex Jones,Milena Quaglia,Isabel Moraes,2023-03-27 *Analytical Sample Preparation With Nano- and Other High-Performance Materials* Rafael Lucena,M. Soledad Cárdenas Aranzana,2021-10-23
Analytical Sample Preparation With Nano and Other High Performance Materials covers advanced sample treatment techniques and the new materials that can be used to boost their performance. The evolution of sample treatment over the last two decades has resulted in the development of new techniques and application of new materials. This is a must have resource for those studying advanced analytical techniques and the role of high performance materials in analytical chemistry. The book explains the underlying principles needed to properly understand sample preparation and also examines the latest materials including nanomaterials that result in greater sensitivity and specificity. The book begins with a section devoted to all the various sample preparation techniques and then continues with sections on high performance sorbents and high performance solvents. Combines basic fundamental principles and advanced concepts and applications for a comprehensive treatment of sample preparation with new materials. Defines nano and other high performance materials in this context including carbon nanoparticles, inorganic nanoparticles, ionic liquids, supramolecular solvents and more. Includes discussion of all the latest advancements and new findings in both techniques and materials used for proper sample preparation.

Insights in Metabolomics: 2021 Wolfram Weckwerth,2023-10-30 We are now entering the third decade of the 21st Century and especially in the last years the achievements made by scientists have been exceptional leading to major advancements in the fast growing field of Metabolomics. Frontiers has organized a series of Research Topics to highlight the latest advancements in science in order to be at the forefront of science in different fields of research. This editorial initiative of particular relevance led by Dr Wolfram Weckwerth. Specialty Chief Editor of the Metabolomics section is focused on new insights, novel developments, current challenges, latest discoveries, recent advances and future perspectives in the field of Metabolomics.
