

# Accentia<sup>®</sup> mini

The Accentia range of intruder alarm control equipment is designed to be used in a wide variety of applications including systems that are monitored by an Alarm Receiving Centre.

Accentia is controlled by a Central Processing Unit (CPU) which may have been concealed within the premises. To avoid the risk of electrical shock, the CPU cover should NOT be removed. Refer servicing to qualified service personnel.

**PROGRAMS**  
Up to 3 Programs may be pre-set within Accentia to allow protection over selected areas of your property and at different times. For example, Full Set, Evening Set and Night Set.

Each program will use one of the "exit modes" described below.

<b>Timed</b>	A timed program will Set at the end of a pre-determined exit time period.
<b>Final Door</b>	A final door program is normally used when you are leaving the premises and will Set 5 seconds after the front door has been closed.
<b>Immediate</b>	An immediate program is normally used when you are not leaving the premises and will Set silently as soon as the program has been selected.

The "Engineer Details" section of these instructions contains a chart showing the zones and exit modes set into each Program.

For clarity, the information below on Setting the system, assumes that all Programs use a Timed or Final Door Setting routine.

## TO SET THE SYSTEM (ON PROGRAM 1)

The green **Day** indicator should be showing. Enter your code number and check that the system is clear (none of the **Zone** indicators are showing). The sounder will now produce an exit tone and you should leave by the approved route. The system will Set as the tone stops.

### Push To Set Switch

In some systems a Push To Set switch may be fitted outside the premises near to the main exit door. This should be used to complete the Setting procedure once the building has been vacated. As the switch is operated, the exit tone will stop and a chime tone will be produced to acknowledge Setting.

## Intruder Alarm Control System

### TO SET A PROGRAM

The green **Day** indicator should be showing. Enter your code number and the exit tone will start. Press the **Prog** key and the exit tone will stop. Press 1, 2 or 3 for the required Program, the sounder will beep the Program number. The exit tone will continue and you should leave by the approved route. The system will Set as the tone stops.

It is important that you follow the correct procedure when Setting the system or any of the programs. After leaving the protected areas it is absolutely essential that you wait until the exit tone stops, before assuming that the system has Set.

**FAULTS DURING SETTING**  
If the system is not clear when you try to Set it, the sounder will produce a broken beep tone and the fault will be displayed. Either re-enter your code to turn off and investigate or omit the faulty zone(s) from the system.

### TO CANCEL A ZONE

During the exit period (after entering your code and selecting a Program), press **Cancel**, the exit tone will stop and the zones that are about to be armed will be displayed. Key in the zone number(s) to be disarmed which will then confirm selection. Zone indicators which show steadily are still about to be armed. When the selection is complete press **Set** and the exit tone will continue.

If a zone "refuses" to be disarmed, it may be because the engineer has programmed the control system to prevent you from turning off the zone. If in doubt call for advice.

### Quick Set

During the exit period (after entering your code and selecting a Program), the system may be Set quickly by pressing **Set**. This removes the time period usually allowed for exit and would be used if you are not leaving the premises.

If you omit zones and require Quick Set, you will need to press **Set** twice.

### TO UNSET THE SYSTEM

Enter your code. If the system has not been previously activated, the green **Day** indicator will come on. If the system has been deactivated, then entering the code will turn the alarm off and the cause of the alarm will be displayed.

Press **Reset** to clear the indication.
