Financial Management for Nonprofit Human Service Organizations Raymond Sanchez Mayers, 2004 Like its well known predecessor Financial Management for

Nonprofit Human Service Agencies this new and expanded edition with a slight title change continues to reflect the author's efforts to provide the critical knowledge needed to communicate with the experts. The central organizing theme of this book is the acquisition, distribution, and reporting of agency resources within a systems framework. Divided into four sections, Section I is an overview that covers historical and sociopolitical context of nonprofit organizations and financing as well as the systems concept and unique characteristics of nonprofits. Section II covers the planning and acquisition of resources by human service organizations. Budgeting, marketing, and grantwriting skills are examined. Section III details the distribution of the acquired resources through internal control, budgeting, and investments. Section IV presents basic accounting techniques, fund accounting, financial reporting guidelines, and financial statement analysis, including the recording and reporting of organizational financial activities. New topics include fees for services, purchase of service, contracting, breakeven analysis for costing services, and activities, third-party payments, internet resources, and a glossary.

Teaching Innovation in Architecture and Building Engineering David Bienvenido-Huertas, María Luisa de la Hoz-Torres, Antonio Jesús Aguilar Aguilera, 2024-06-19. This book presents contributions on teaching innovation in university architecture and building engineering studies. The authors explain how the construction sector demands that future architects and building engineers have the knowledge and skills that allow them to meet the decarbonization objectives established by international organizations and that this causes the level of knowledge to be higher. The contributors further discuss new technologies and the internationalization of studies, presenting new challenges university studies must face. This heterogeneity is represented in the chapters that make up this book, developed by researchers from different countries. The book is divided into three blocks: i) Active learning methodologies, ii) Innovative methodologies applied to learning process, and iii) Traditional vs. Advanced Techniques. The chapters of the book represent an advance in the current knowledge of teaching innovation techniques in university architecture and building engineering studies.
