**How To Start Your Own Bookkeeping Business** Lisa Newton, 2012-08-26 How to set up create and start your own bookkeeping business from scratch And be successful This book is written by UK author Lisa Newton who started her own bookkeeping business for 150 in 2004 She used 100 from her overdraft and got 50 investment from her mum And she made it work It is an action packed tip filled no nonsense approach to how to start what to do things to look out for pitfalls to avoid and its guidance will help you to avoid the expensive painful time consuming mistakes which most freelance independent bookkeepers make There are plenty of horror stories to keep you on your toes and plenty of useful content to help you to make that transition from full time employee to full time business owner Amongst other things this book covers getting started products price place promotion dealing with clients suppliers subcontractors practical exercises for you to try key templates to help you get started and a whole lot more This isn't theoretical or written by some lecturer This is written by someone who has been there done it and franchised the bookkeeping business And won the Bookkeeping Franchisor of the Year BKN award in 2012 AND 2013 What you'll soon realise for those of you thinking of starting this kind of business is that there are a lot of HATERS out

there and the minute you start to become successful they'll want to find a way to tear you down. This is because their own businesses are failing and instead of working on themselves they feel threatened and prefer to either try and either steal from you or stalk you. Beware of fishing callers and emails or prevent you from getting on with running the show. Instead of minding their own business some competitors prefer to focus their efforts on you. But it doesn't matter it's actually part of the fun and games which this book also covers. The author draws on their own personal experiences and shares the stories and events to help you to avoid the pitfalls which no one else will warn you about. Not all businesses are the same and this book does specifically cover issues direct to running an accounting bookkeeping business. In stock cash based businesses one must be wary of pilfering goods and cash in this type of business other things can be stolen resources time ideas etc. The book covers it. In the words of Richard Branson you have to be so good that they just can't take their eyes off you. I'd add and they just can't stop talking about and thinking about you. Aim to be part of their every waking moment be the stuff of dreams and nightmare. Be everywhere it'll irritate them even more. Always be flattered when people make an attempt to sabotage your efforts be it a bad review or to try and get information out of your team to find out how you're doing it it's all happened to us and it's to be expected when you're causing a ripple and doing something that works. What's the secret I hear you ask. Read the book and find out. Please share your stories with the author. Find the book on Facebook we have a support group for people who have read the book and want to take it to the next level of bookkeeping businesses. The follow up to this book is 97 WAYS TO MARKET YOUR ACCOUNTANCY BUSINESS which goes into marketing for accountants bookkeepers here's an idea for you when you start your own bookkeeping business in effect you are no longer just a mere BOOKKEEPER oh no you are now a MARKETEEER OF BOOKKEEPING SERVICES and believe me there is a difference. No one went to accounting school to learn about sales marketing yet if you want to run a business nothing happens in that business until SOMEONE SELLS SOMETHING.

**Value Pricing for Accounting Professionals** Mark Wickersham, 2022-07-03 Accountants and bookkeepers are working long hours but not making the profits they should. A value pricing strategy can lead to better prices for accounting professionals and better results for their clients. The concept of value pricing is simple to understand but many accountants struggle with the price conversation and lack the confidence to charge higher prices. Value Pricing for Accounting Professionals is a practical guide to building a clear pricing strategy feeling more confident and increasing earnings. It covers the critical steps to pricing a new client and how to re-price existing clients without losing them by quantifying value. The book's step by step approach is backed up by dozens of real life case studies of firms which applied these methods to get better results along with benchmarking research based on a survey of thousands of accounting professionals. There is guidance on calculating a profitable price creating effective packages and managing the invisible cost of scope creep and new insights into meeting clients remotely and pricing in difficult economic times. Become more profitable and deliver extraordinary solutions to clients with this essential guide to effective value pricing.
