### TEACHING/LEARNING OBJECTIVES

#### Principal:

1. To present a definition of accounting.
2. To identify and describe different classifications of accounting.
3. To emphasize that financial accounting standards are not a “fixed code of rules,” but are established in response to user needs and business developments. Accountants need to apply professional judgment in the application of accounting principles.
4. To emphasize the role and sources of ethics for the accounting profession.

#### Supporting:

5. To summarize how accounting has evolved over time.
6. To identify sources of standards for other types of accounting and to contrast these with financial accounting standards.
7. To introduce the issues associated with the development of international accounting standards.
8. To describe the content of the FASB Conceptual Framework project.
9. To summarize Concepts Statement No. 8, Chapter 1 — The Objective of General Purpose Financial Reporting.
10. To relate the objectives of financial reporting for nonbusiness organizations to those of business enterprises.

### TEACHING OBSERVATIONS/ASSIGNMENT SUGGESTIONS:

1. Students should be put on notice about the jargon of accounting, the use of synonymous terms, the importance of the context within which a term is used, and the need for precision in the use of terminology. The first example of jargon is the term *entity*.
2. When discussing “Auditing — Public Accounting,” have students find the *auditors’ opinion* in the Campbell Soup Company 2020 Annual Report (see pages E7-48 of the Appendix). Emphasize that a “clean opinion” is not a “clean bill of health.”
3. Discuss the Summary of Concepts Statement No. 8, Chapter 1 — The Objective of Financial Reporting, in detail.
