Learning Objectives:

1. Explain how to account for current liabilities.
2. Describe the major characteristics of bonds.
3. Explain how to account for bond transactions.
4. Discuss how liabilities are reported and analyzed.

Learning Objective 1: Explain how to account for current liabilities.

Current Liabilities

1. Company expects to pay the debt from existing current assets or through the creation of other current liabilities.
2. Company will pay the debt within one year or the operating cycle, whichever is longer.
3. Current liabilities include:
notes payable, accounts payable, unearned revenues, and accrues liabilities such as taxes.

Notes Payable

- ◆ Written promissory note.
- ◆ Require the borrower to pay interest.
- ◆ Those due within one year of the balance sheet date are usually classified as current liabilities.

Illustration: First National Bank agrees to lend \$100,000 on September 1, 2022, if Cole Williams Co. signs a \$100,000, 12%, four-month note maturing on January 1.

When a company issues an interest-bearing note, the amount of assets it receives generally equals the note's face value.

CAAs	100000	
Notes payable (record the notes payable from the first 4 months)		100000

If Cole Williams Co. prepares financial statements annually, it makes an adjusting entry at December 31 to recognize interest.

Interest expense = $100000 \times 12\% \times 4/12 = 4000$

Interest Expense	4000	
Interest Payable		4000

At maturity (January 1), Cole Williams Co. must pay the face value of the note plus interest. It records payment as follows.

Short,2003 Libby Libby Short wrote this text based on their belief that the subject of financial accounting is inherently interesting but financial accounting textbooks are often not They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business When writing this text they considered career relevance as their guide when selecting material and the need to engage the student as their guide to style pedagogy and design Libby Libby Short is the only financial accounting text to successfully implement a real world single focus company approach in every chapter Students and instructors have responded very favorably to the use of focus companies and the real world financial statements The companies chosen are engaging and the decision making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting
