

# Argumentative essay introduction: Example

The spread of the internet has had a world-changing effect, not least on the world of education. The use of the internet in academic contexts is on the rise, and its role in learning is hotly debated. For many teachers who did not grow up with this technology, its effects seem alarming and potentially harmful. This concern, while understandable, is misguided. The negatives of internet use are outweighed by its critical benefits for students and educators -- as a uniquely comprehensive and accessible information source, a means of exposure to and engagement with different perspectives, and a highly flexible learning environment.

**Journal Development** Ashok Yakkaldevi, **Argumentative Style** Frans H. van Eemeren, Bart Garssen, Sara Greco, Ton van Haaften, Nanon Labrie, Fernando Leal, Peng Wu, 2022-07-15 Argumentative Style discusses the various ways in which the defence of a standpoint is given shape in argumentative discourse In this innovative study the new notion argumentative style introduced for this purpose is situated in the theoretical framework of the pragma dialectical approach to argumentation This means that the choices involved in utilising a particular argumentative style do not only concern the presentational dimension but also the topical selection and the audience adaptation of the strategic manoeuvring taking place in the discourse In identifying the functional variety of the argumentative styles utilised in the political the diplomatic the legal the facilitatory the academic and the medical domain the point of departure is that these argumentative styles manifest themselves in the discourse in the argumentative moves that are made the dialectical routes that are chosen and the strategic considerations that are brought to bear *Succeeding from the Margins of Canadian Society* Francis Adu-Febiri, Everett Ofori, 2009-11-08 It is possible to overcome barriers to minority success in Canada The stance of this book is that new immigrants refugees and international students do not have to settle for underachievement despite the cultural and structural disadvantages they face in Canada The fact is the unequal social structure of Canada has some cracks and many minorities have used strategic resources to open up these cracks and achieved tremendous upward social mobility in Canadian society from the margins These documented minority successes in Canada in the face of systemic marginalization provide lessons and hope for new immigrants refugees and international students The economic political social and cultural problems that minorities encounter in Canadian institutions organizations communities and from individuals overwhelm and

break many of them. However, some minorities break records in the face of the frustrations they encounter. What accounts for the success of the latter group of immigrants, refugees, and international students in Canada? Individual efforts and personal ambitions are not enough to explain these success stories. This book highlights strategies and support systems that facilitate minority strategic connections with Canadian mainstream institutions, organizations, and individuals to win from the margins of society. Although the book does not get into the theories of inequality, equity, and diversity, it does acknowledge the structural and cultural barriers to minority success in Canada. That is, it does not blame individual minorities for not making it in Canada. Rather, it points to strategic resources that new immigrants, refugees, and international students can use to help them overcome some of the barriers to success in Canada.

Logical Argument in the Research Paper Russ Ward, 1997. Logical Argument in the Research Paper operates on the premise that collegiate level writing, when cast in its most significant and sophisticated form, is argumentative. Students are shown how writers examine a potential topic, establish a stance upon that topic, defend the stance, avoid reasoning and ethical errors, and in general, say something meaningful about the topic. It also includes instruction about finding sources, gathering information from them, and correctly documenting them. However, the emphasis remains on how effective writers evaluate sources, think about the information they discover, prepare a fair and informed argument, rethink and revise the argument, and finally present an argument in its completed form. Logical Argument in the Research Paper will help students learn some of the reasoning processes that all writers use when composing the academic argument.

**A Linguistic Analysis of Strategies of Argumentation in English Print Ads** Julia Trede, 2012-05 Seminar paper from the year 2012 in the subject English Language and Literature Studies Linguistics grade 1 3 University of Kassel language English abstract No matter where we are advertisements are everywhere but how do people decide which product to buy Today consumers may choose which toothpaste or shampoo they want to purchase because there is a huge range of brands that offer the same goods therefore companies have to persuade consumers to buy their product As a student of linguistics I asked myself how argumentative persuasion in advertising functions and how it contributes to its effectiveness I found two very interesting approaches by Clemens Ottmers and Nina Janich who determined different argumentation strategies for analysing advertisements Although there is a lot of literature dealing with language and advertising there are only few works concerned with strategies of argumentation in advertising Since 1945 and especially during the economic miracle there has been a steady increase of research in the field of language

and advertising First works dealing with argumentation and advertising were published in the 1960s In the course of years linguists concentrated more on specific linguistic aspects of advertising and presented first analysing methods Furthermore they focused on rhetoric figures strategies of advertising and on the effects of images Nowadays linguistic research concentrates on semiotics and image text relations as well as on intentions persuasion in advertisements and TV spots However the main problem of linguistic research of advertising is the lack of a fundamental work dealing with language of advertising and its versatility with reference to images and advertising media Beyond Note Cards Bruce P.

Ballenger,1999 Any teacher driven to despair by a stack of student research papers will find welcome inspiration in Beyond Note Cards Since the research paper first became a fixture in the composition classroom no other assignment has caused as much dread in students By putting it in historical context Ballenger offers new insight into the problems and promise of the research paper and practical advice on how to revive it Beyond Note Cards examines the best of the existing scholarship to offer a fresh theoretically sound approach to teaching the research paper Drawing on the recent movement to encourage inquiry based learning Ballenger argues that the spirit of inquiry should be at the heart of research paper instruction not the usual preoccupation with teaching the paper s formal qualities While Ballenger deals with theory his book is never dry Through case studies of his students and often revealing autobiographical anecdotes the author weaves a fascinating story about the evolution of the research paper historically and in his own classroom The book also contains many practical features including classroom tested exercises and assignments to help students become better researchers and research writers original survey information that instructors can use to discuss the assignment with their own students a special section on how to teach the double entry journal as part of a research assignment a helpful appendix that explores Internet research and new approaches to note taking Beyond Note Cards is an essential resource for instructors who are anxious to build connections between personal writing assignments and academic writing by highlighting the habits of mind that are present in both In addition teachers who already use Ballenger s popular student handbook The Curious Researcher Allyn Bacon will discover new ways to supplement it *Sri Lanka Journal of International Law* ,2003 The Writing Process John M.
