Army Field Manual Appendix M:

Interrogation and Torture Steven J. Barela, Mark Fallon, Gloria Gaggioli, Jens David Ohlin, 2020 This book develops for the first time a comprehensive discussion regarding the legality of torture and the efficacy of interrogation. Scientific research has concluded that torture is not effective. So what interrogational methods are effective and how does one deploy those methods in such a way that is consistent with law and morality?

Constitutionalism Across Borders in the Struggle Against Terrorism Federico Fabbrini, Vicki C. Jackson, 2016-04-29 This edited collection explores the topic of constitutionalism across borders in the struggle against terrorism, analyzing how constitutional rules and principles relevant in the field of counter terrorism move across borders. Various chapters underline how constitution-like norms consolidate at the level of international and supranational organizations as a limit to the exercise of public power in the field of counter terrorism policy, especially counter terrorism financing. Other chapters examine the extraterritorial application of constitutional rights and the migration of constitutional norms or anti-constitutional practices from one state to another. Still others consider how transnational cooperation between states in areas such as intelligence gathering and data sharing may call for updating domestic constitutional law rules or for new international law compacts entrenching rights across borders. What emerges is a picture of the complex interplay of constitutional law, international law, criminal law, and the law of war, creating webs of norms and regulations that apply in the struggle against terrorism conducted across increasingly porous borders. The book will be of particular interest to academics and graduate or postgraduate students working in the fields of constitutional law, international law, human rights, comparative law, and national security law. It may also be of interest to practitioners concerned with national security, counter terrorism, and related questions of individual rights.

Doing Harm Roy J. Eidelson, 2023-09-05 *Doing Harm* pries open the black box on a critical chapter in the recent history of psychology, the field's enmeshment in the so-called war on terror, and the ensuing reckoning over do-no-harm ethics during times of threat. Focusing on developments within the American Psychological Association (APA) over two tumultuous decades, Roy Eidelson exposes the challenges that professional organizations face whenever powerful government agencies turn to them for contributions to ethically fraught endeavours. In the months after 9/11, it became clear that the White House, the Department of Defense, and the Central Intelligence Agency were prepared to ignore well-established international law and human rights standards in prosecuting the war on terror. It was less clear, however, that some of Eidelson's fellow psychologists would become part of the abusive and torturous operations at overseas CIA black sites and Guantanamo Bay. Nor was it initially clear that this ruthless enterprise would garner acquiescence and support from the APA's leadership. *Doing Harm* examines how and why the APA failed to join human rights groups in efforts to constrain the US government's unbridled pursuit of security and retribution. It recounts an ongoing struggle one that has pitted APA leaders set on preserving strong ties to the military intelligence establishment against dissident voices committed to prioritizing do-no-harm principles.

The Monthly Army

List ,1899 *The War on Terror and the Laws of War* Michael Lewis,Geoffrey Corn,2009-10-15 When a soldier in the field of battle is under attack in a small village and comes upon a villager who could be a combatant or a civilian what rules govern how that soldier should act If the soldier detains the villager and determines that the villager is an unaffiliated combatant what do the rules of detention require In The War on Terror and the Laws of War six legal scholars with experience as military officers bring practical wisdom to the contentious topic of applying international law to the battlefield The authors apply their unique expertise to issues that have gained greater urgency during the United States wars in Iraq and Afghanistan including categorizing targets and properly detaining combatants The modern battlefield has proven to be a difficult arena in which to apply traditional legal rules The War on Terror and the Laws of War brings clarity to the subject with an insider's perspective

Geography for Professionals and the Public John M. Collins,1998 Excerpt from Military Geography for Professionals and the Public The dearth of consolidated studies on the discipline of military geography came to John Collins' attention early in his long and distinguished career as a soldier and scholar Thus he began and kept up an interest in the subject for more than 40 years amassing voluminous files on the subject Finally afforded the opportunity to research and write on his avocation at the National Defense University he spent 2 years as a Visiting Fellow tapping not only his own wealth of data and experience but a wide variety of well informed opinions on every facet of military geography The resultant volume the culmination of a life long career fills a gap in the professional and technical literature The National Defense University is pleased to have hosted John Collins and to publish his work No other book to our knowledge marries military art with that of the geographer so deftly and completely The volume seems destined to meet its stated purposes for years to come namely to provide a textbook for students a handbook for military professionals and an enlightening survey for any appreciative lay reader About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an

imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Naval Logistics George Carroll Dyer,1962 *Catalogue of the Library of the Mercantile Library Association of San Francisco* Mercantile Library Association (San Francisco, Calif.),1874 **The American Catalogue** ,1881 American national trade bibliography The Boston Medical and Surgical Journal ,1899
