Use what you know about matter to help the mouse to find the cheese. Color the squares about liquids red, the squares about gases green, and the squares about solids yellow. Then draw a line on the yellow path for the mouse to get to the cheese.

	liquid	solid	has a definite size but no shape			water takes this form above 100°C
has a definite size and shape	gas	has no definite size or shape		can be poured		
		water takes this form below 0°C	takes the shape and size of any container		things take this form when they freeze	
takes the shape of its container but not the size		water changes to this state between 0°C and 100°C	water changes to this state above 100°C			
	water takes the same shape when they melt				liquids take the same shape when they evaporate
