But to really get the most out of the new operating system, you're going to need a guide. Thankfully, Windows 10: The Missing Manual will be there to help. Like its predecessors, this book from the founder of Yahoo Tech, previous New York Times columnist, bestselling author and Missing Manuals creator, David Pogue, illuminates its subject with technical insight, plenty of wit and hardnosed objectivity for beginners, veteran, standalone PC users, new tablet owners and those who know their way around a network.
