ATI® Study Material and
Resources for the Test of
Essential Academic Skills®. This book
will help you with an overview of the concepts
and skills included on the TEAS along with
suggestions for effectively preparing for the
test. Also, this guide will explain the goals of the
test, the skills within a broad range of essential skills
in reading, math, science, and English
and suggest ways that you have developed
over the course of your academic career. Also,
this guide will help you create a study plan to
achieve a high performance. Finally, this study
guide provides focus on learning skills associated
with the TEAS and plans (strategies) include descriptions,
diagrams, and graphic organizers to help you
review key topics. Each topic ends with practice
questions designed to show you what questions on
the TEAS, a sample application of the concepts
covered by each question is also included to
show you what questions to also expect to
appear on the TEAS.

TEAS SUBJECT AREAS

The TEAS test was developed for health science students to measure the academic preparedness of prospective students. Questions on the TEAS assess student knowledge of the disciplines that address topics covered in grades 9-12. The disciplines include skills and concepts that health science educators believe are most important for success in health science programs. The disciplines cover the academic subject areas of:

- Reading
- Math
- Science
- English and Language Usage

Introduction

The TEAS covers the essential concepts
necessary for each of the 4 subsections of the
TEAS. Keep in mind that the concepts provided
in the material are not comprehensive. They do
not include all the possible content questions
on the TEAS. This chapter also, however,
provides a clear overview of the concepts and skills
you will encounter on the TEAS.

TEAS QUESTIONS

The TEAS is composed of 100 items that include
100 numbered printed items, the majority of which
are four options, multiple-choice questions. With
the introduction of the TEAS-4 test plan in
2010, alternate item types will soon be introduced
and placed on the test. These include:

- Multiple choice (all of the types)
- Supply answer (all of the four
multiple-choice options)
- Selecting four options in the correct
sequence
- One open ended or open of an answer

The test is available in both paper and open
multiple-choice question (electronic) formats. Items from the
four subject areas are grouped in separate
sections, and each has a chapter. In addition
to these, the following table provides the
number of questions and their distribution per each
section of the TEAS, listed in order of administration:

Subject Area	Number of Questions	Percent
Reading	40 questions (8 percent)	8.00%
Mathematics	30 questions (6 percent)	6.00%
Science	30 questions (6 percent)	6.00%
English and Language Usage	30 questions (6 percent)	6.00%

Test 100 questions (20 percent) 20%
Questions in each subject area are organized by
the key topics being assessed. There are a set
number of questions for each key topic. The
following table shows the number of items
questions for each key topic.

Subject Area/Topic	Number
