**Statistics for Nursing Research - E-Book** Susan K. Grove, Daisha J. Cipher, 2024-01-20 Get the review and practice you need to critically appraise the statistical methods used in published research. Statistics for Nursing Research 4th Edition helps you understand and interpret statistical methods sampling and measurement techniques and statistical analysis techniques. This unique and practical workbook is divided into two parts to differentiate between basic and advanced statistical methods with dozens of hands on exercises that will help you practice working with the statistical methods needed for building an evidence based practice. This workbook is an indispensable resource for any nursing student or practicing nurse wishing to gain competency in conducting statistical analyses. Comprehensive coverage of basic statistical methods includes extensive practice with the most common techniques of sampling measurement and statistical analysis seen in nursing and health sciences literature. Literature based approach uses key excerpts from published studies to reinforce learning through practical application. 38 sampling measurement and statistical analysis exercises provide a practical review of both basic and advanced statistical techniques. Study Questions in each chapter help you examine a statistical technique and apply concepts to an actual literature appraisal. Online submission of answers for Questions for Further Application allows you to complete exercises in a web based format and then submit completed exercises to your instructor via email for grading. Consistent format for all chapters enhances learning and enables quick review. NEW More than half of the research articles in Part 1 are new ensuring that exercises are based on the most current clinically applicable published studies. NEW Enhanced interactive online functionality of the Questions for Further Application for each chapter allows you to save your work and complete the exercises at a later time before submitting work to your instructor for grading. NEW Enhanced emphasis on diversity and inclusion features representation of diverse authors and research foci in selected published articles. NEW Two new exercises are added to this edition a unique Handling Missing Data exercise and a Calculating the Mann Whitney U Test exercise. NEW VST eBook version of this title is a fully interactive eBook for the first time. NEW Supplemental video tutorials by Dr Cipher on the Evolve website provide valuable reinforcement that is especially helpful for visual and auditory learners.

*Transition from Clinician to Educator* Fressola, G. Elaine Patterson, 2016-08 The American Association of Colleges of Nursing AACN reports that in recent years U.S. nursing schools have turned away thousands of qualified applicants from baccalaureate and graduate nursing programs due to an insufficient number of faculty clinical sites classroom space clinical preceptors and budget constraints. One potential group of faculty can be found in the clinical practitioner pool some of whom are awaiting the opportunity to transition into academic education. This book is intended as a response to the needs of experienced clinicians lacking in academic preparation and experience in teaching. This book covers the organizational world of academia classroom and clinical teaching and using technology in classrooms and clinical education preface.
